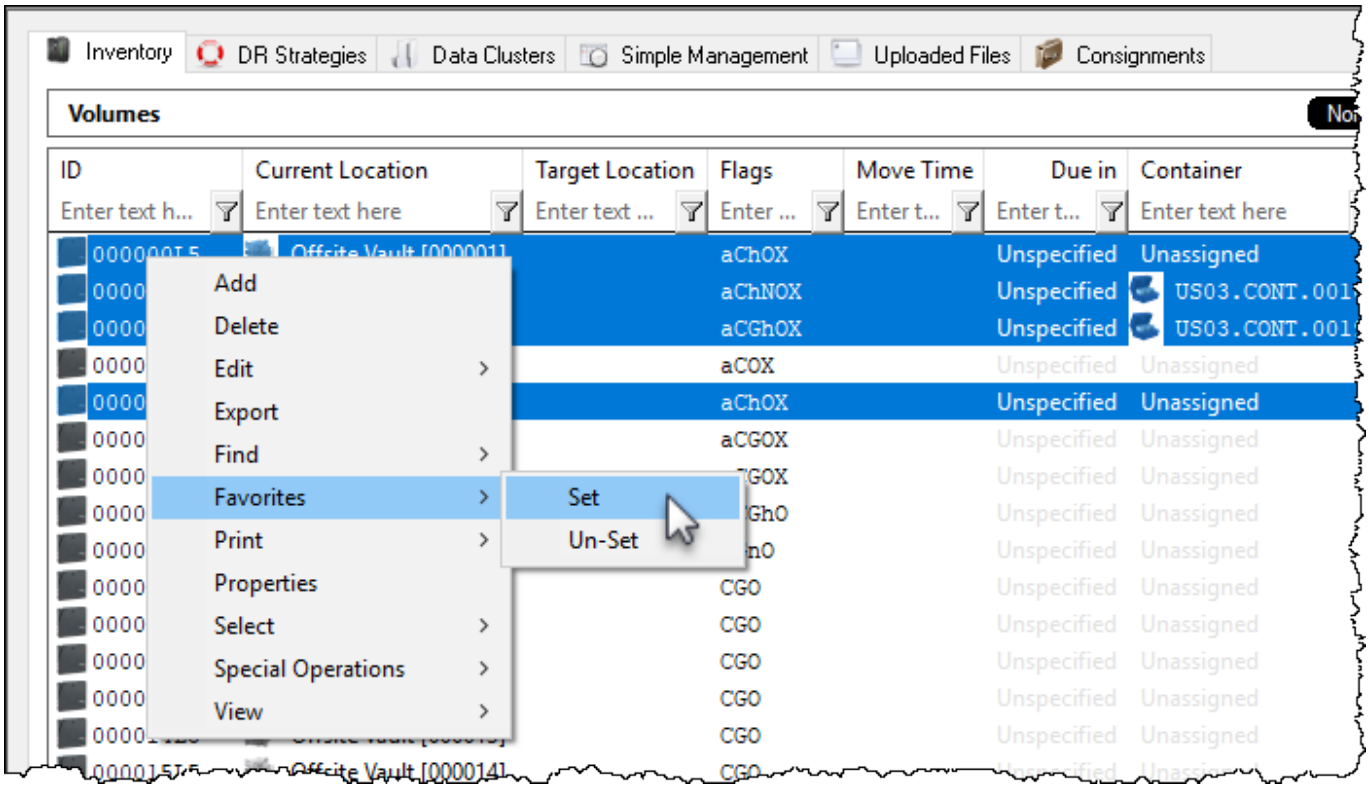
Overview

Volumes that need to be referenced on a regular basis, or need to be observed for any specific reason can be marked as a favorite. This allows easy identification and quick filtering from other volumes.

Adding A Favorite Volume

Select a volume, or a range of volumes, to be marked as a favorite. Right click highlighted volume/s and select `Favorites` → `Set`.



Insert comments describing why the volumes are being marked as favorites and click OK.

This will add an F flag to the volume/s and change the icon to a star.
