2025/12/01 08:17 1/1 Toolbar

## **Toolbar**

The toolbar provides access to:

- **Customer Filter**: Filters which Customers are displayed in the Movement Tree.
- Date Warning: Audible warning of volumes with a next move within the time frame selected.
- Hide No Moves: Movement Tree will only display Customers with Volumes in a move status.
- Pick: Scan mode to distribute volumes to another repository.
  - **Pick in volser order**: Changes scan order of volumes from slot order to volser order.
  - Pick out of sequence: Allows volumes to be picked out of list sequence without causing errors to be displayed.
- Query: Scan mode for receiving volumes from another repository.
- **Current Container**: In Pick mode, displays current container ID to which scanned volumes are assigned to.
