Command Line Utilities

The TapeTrack Command Line Utilities provide a large range or automation and reporting functionality and have been ported to the following platforms:

1. AIX
2. HPUX
3. IBMi
4. Linux (Intel and ARM)
5. Solaris (SPARC and Intel)
6. Windows
7. zOS

While most utilities are available for Linux and Windows, other platforms only support a subset of the full command suite.

Automation Utilities

Command	Description
TMSS10AssignContainer	Assigns volumes to container/s.
