2025/04/19 16:26 1/2 tmssbatch

# **TMSSBatch**

TMSSBatch will open the TapeTrack Batch Utility, allowing simplified input of information to create a batch file for execution of a command line utility executable, including input of arguments, input files and specification of the working directory.

# **Options**

- A Program variables
  - Executable Path Full directory path to selected executable (non editable)
  - **Executable Program** Target executable program
  - Arguments Arguments required for executable
- B Environmentable Variables

## **Technical Support**

The TapeTrack Software is commercially supported by a full time help desk staff. If you are experiencing problems or want some advice on how to configure or use the product please see the Accessing Technical Support page.

#### Last update: 2025/01/21 22:07
