# TMSS10Custom\_BillByAge

### **Synopsis**

TMSS10Custom\_BillByAge [-R date range] [-S logon string] [-V volume filter] [-a actual repository] [-f template file]

### **Description**

TMSS10Custom\_BillByAge will produce TapeTrack Billing XML records based on the length of time a Volume has been in a Repository.

### **Options**

- -R Specifies the date range.
- -S The logon string argument sets the Server logon information
- - V Volume Filter which can be used to filter the traversal of Customer, Media, Volume, repository and flag values.
- · -a Actual repository filter
- - f XML template file (default = \$template.xml)

### **Technical Support**

The TapeTrack Software is commercially supported by a full time help desk staff. If you are experiencing problems or want some advice on how to configure or use the product please see the Accessing Technical Support page.
