

TMSS10MoveList

This program produces a report of all [Volumes](#) that are in a Move Status.

Synopsis

```
TMSS10MoveList [-S logonstring] [-V volume filter] [-C current repository] [-T target repository] [-v print virtual location] [-c configfile]
```

Description

TMSS10MoveList produces a report listing all tape [Volumes](#) that are in a “Move Status”, i.e. they have a different Current and Target [Repository](#).

Options

The options which apply to the TMSS10MoveList command are:

- -S The logonstring argument sets the Server logon information (see [Command Line Server Argument](#)).
- -V [Volume Filter](#) which can be used to filter the traversal of [Customer](#), [Media](#), [Volume](#), [Repository](#) and [Flag](#) values.
- -C Current [Repository](#) Filter.
- -T Target [Repository](#) Filter.
- -v Print [Virtual Slot](#) Locations (default = false).
- -c The config file argument specifies the path to the Batch Configuration File.

If an argument value starts with the value FI:, the value for that attribute will be read from the file name specified immediately after it. For example, if a file named ACME_volumes has the content ACME_*.*, specifying FI:/etc/ACME_volumes will have the same effect as -V ACME.*.*. Using FI: to refer to a file for an attribute value works for all attributes.

If the pattern being matched starts with *LIST: then rather than matching the literal value, each record in the file specified as *LIST:filename will be tested. If one matches the match will succeed.

Notes

Moving Volumes List

Report-ID: 102

Moving Directions List
Report-ID: 103

Exit Status

1. **zero** Program has ended successfully.
2. **non-zero** Program has not ended successfully.

Environment

- [TMSSAPILOGDIR](#)
- [TMSSBEEP](#)
- [TMSSNOMD5](#)
- [TMSSPWPATH](#)
- [TMSSSERVERPROXY](#)
- [TMSSAPILOGDIR](#)

Files

- stdout Output Reports.
- stderr Diagnostic messages.
- stdin Program input.

Examples

Command line syntax

```
TMSS10MoveList -S user:-password@server
```

Output

```

      System: TapeTrack
      Report ID: 102
Report Description: Moving Volumes List
      Report Notes: Customer(New York Data Center) Media Type(LTO
Cartridge)
      Production Time: Thursday, July 18, 2019 - 09:30:39 (AUS Eastern
Standard Time)
      Report Width: 190 bytes

Seq.   Barcode           Current Location           Target Location
Move  Time              Time                    Container                 Attribute

Current Repository	Target Repository	Total
Library	Offsite Vault	3
Offsite Vault	Library	3

Create a move list of all US01 LTO Scratch Volumes, with a custom report heading. Drop Movement Directions report (Report ID 103).

Command line syntax

```

set TMSS10REPORTS102=New York Data Center - LT0 - Scratch Movement Report
set TMSSDR0PREPORT103=true
TMSS10MoveList -S user:-password@server -V US01.LT0.*@*+Z

```

Output

```

System: TapeTrack

```

Report ID: 102

Report Description: New York Data Center - LTO - Scratch Movement Report

Report Notes: Customer(New York Data Center) Media Type(LTO Cartridge)

Production Time: Thursday, July 18, 2019 - 09:30:39 (AUS Eastern Standard Time)

Report Width: 190 bytes
