## Technical Support

The TapeTrack Software is commercially supported by a full time help desk staff.

If you are experiencing problems or want some advice on how to configure or use the product please see the Accessing Technical Support page.

## Sample Script

A sample slotting script to execute TMSS10SlotAllocation can be found in your TapeTrack Install at TapeTrack\TapeTrack Framework Server\scripts

This script will allocate a Volume to a vacant Slot that is in a location eligible for slotting.

While it is possible to execute this scrip manually when required, it is recommended that this script be scheduled to run every 5 minutes.
