

# TMSS10ValidateBarcode

## Synopsis

TMSS10ValidateBarcode [-C Customer-ID] [-M Media-ID] [-S logon string]

## Description

TMSS10ValidateBarcode will parse a list of volume Barcodes, outputting the Barcode rule the Barcode will be parsed under if valid.

## Options

- -C Default Customer-ID.
- -M Default Media-ID
- -S The Logon string argument sets the [Server Logon Information](#)

If an argument value starts with the value FI:, the value for that attribute will be read from the file name specified immediately after it. For example, if a file named ACME\_volumes has the content ACME\_\*.\*, specifying FI:/etc/ACME\_volumes will have the same effect as -V ACME.\*.\*. Using FI: to refer to a file for an attribute value works for all attributes.

If the pattern being matched starts with \*LIST: then rather than matching the literal value, each record in the file specified as \*LIST:filename will be tested. If one matches the match will succeed.

## Technical Support

The TapeTrack Software is commercially supported by a full time help desk staff. If you are experiencing problems or want some advice on how to configure or use the product please see the [Accessing Technical Support](#) page.

## Exit Statuses

1. **zero** Program has ended successfully.
2. **non-zero** Program has not ended successfully.

## Environment

## Files

**stdout:** Output Reports.  
**stderr:** Diagnostic messages.  
**stdin:** Program input.

## Example

### Command line syntax

```
TMSS10ValidateBarcode -S user:-password@server -C "US02" -M "LT0"
```

Once you have run the above code, enter in the Barcodes to be parsed either manually, via cut and paste or Barcode scanner.

### Output

System: TapeTrack  
Report Description: Barcode Parse Report  
Production Time: Monday, November 27, 2017 - 11:18:23 (AUS Eastern Daylight Time)  
Report Width: 157 bytes

Seq.	Barcode	C-ID	M-ID	V-ID	Rule	Rule Description
Result						
-----	-----	-----	-----	-----	-----	-----
111111L6						
2	111111L6	US02	LT0	111111L6	18	Generic *
Request OK						
1234567890L6						
3	1234567890L6	US02	LT0	1234567890	18	Generic *
Request OK						

 Note the truncation of volume Barcodes over 10 characters.
