## Printing Slot Barcodes

Currently there is no provision to print slot barcodes directly from TapeMaster. However, as slots are simply allocated a numerical sequence 000000, 000001, 000002 etc.

A text file with slot numbers (slot ID:Text) and text identifier (alphanumeric barcode representation)

can be imported into the Barcode printer from the menu `File→Open`.

To create large groups of slotID:description fields for importation it is recommended to use Excel auto fill feature.
