

# Overview

Flags indicate the status of a Volume including its movements, Slot, location, Container, audits, and more.

## Flag Definitions

| Flag Value | Description  | Settable |
|------------|--|----------|
| <b>A</b>   | Volume has a Container Security Tag assigned.  |          |
| <b>a</b>   | Volume has failed a Physical Audit or a Logical Audit (Set by Reconciliation).                             |          |
| <b>B</b>   | Volume is a Container.   |          |
| <b>C</b>   | Volume is confirmed in its current Repository.   |          |
| <b>c</b>   | Volume is part of a Consignment.   |          |
| <b>D</b>   | Volume has a Move Date.  |          |
| <b>d</b>   | Volume Move Date is in the past.   |          |
| <b>E</b>   | Volume is encrypted.   |          |
| <b>F</b>   | Volume has been set as a <a href="#">Favorite</a>  |          |
| <b>G</b>   | Volume has missed a reporting deadline.  |          |
| <b>H</b>   | Volume Move Date is a Holiday.   |          |
| <b>h</b>   | Volume is hidden (ghosted).  |          |
| <b>I</b>   | Volume is moving internally (from one Slot to another in the same Repository).                             |          |
| <b>K</b>   | Volume has been Picked-Up.   |          |
| <b>L</b>   | Volume has an update lock and cannot be updated by anyone other than the <a href="#">tapemaster User</a> . |          |
| <b>l</b>   | Volume has a move lock and cannot be moved.  |          |
| <b>M</b>   | Volume is moving from one Repository to another.   |          |
| <b>m</b>   | Volume has a Home Slot.  |          |
| <b>N</b>   | Volume has a Description.  |          |
| <b>n</b>   | Volume has no Slot assigned.   |          |

| Flag Value | Description                                  | Settable |
|------------|--|----------|
| <b>O</b>   | Volume is in the Primary Offsite Repository. |          |

\* **o**: Volume is overdue at its Target Repository.

- **p**: Volume has been set as Move Pending as its Move Date has been exceeded (Set by [TMSS10MovePending](#)).
- **Q**: Volume has been flagged as unhealthy by a VeriTape system.
- **r**: Volume has been requested back from a Third Party.
- **S**: Volume always uses Simple Management.
- **t**: Do not assign a Slot to this Volume.
- **U**: Volume has been scanned out of the current Repository using either TapeTrack Lite or TapeTrack Check Point.
- **u**: Volume has been flagged as a duplicate.
- **W**: Volume has a warning (has moved back to its original Repository without having been confirmed at its destination).
- **X**: Volume has been Audit-Scanned.
- **Z**: Volume is Scatch.

## Using Flags

### Setting Flags

There are two ways to set flags:

#### Method 1

Right-click the Volume/s in the Volume List, hover over Special Operations, then Modify and select Flags.

For each flag in the Modify Flags window, there are three options:

- **Value:** Value can be set to one of four options:
  1. **Do not change:** Leaves the Flag as is.
  2. **Add Flag:** Adds the selected Flag to the selected Volume(s).
  3. **Remove Flag:** Removes the selected Flag from the selected Volume(s).
  4. **Toggle Flag:** Will add the selected flag if it is not present and remove it if it is.
- **Set Count:** When multiple Volumes are selected, the Set Count will display how many Volumes have that flag.
- **Not-Set Count:** When multiple Volumes are selected, the Not-Set Count will display how many Volumes do not have that flag.

### Method 2

Go to the Options Tab in the Volume Properties Window, and toggle the flags section. Set the desired Tags to **True** to add them or **False** to deactivate them. [image](#) The Flags in the Options Tab are as follows:

- **Has Consignment (c) :** When **True**, the selected Volume is part of a Consignment.
- **Has Description (N):** When **True**, the selected Volume has a description.
- **Do Not Slot (t):** When **True**, the selected Volume cannot be slotted.
- **Is a Container (B):** When **True**, the selected Volume is a Container.
- **Movement Required (M):** When **True**, the selected Volume is either Moving or needs to be

Moved.

- **Hidden (h):** When **True**, the selected Volume is hidden and cannot be viewed in the Volume List. Hidden Volumes can be seen by modifying options in the Preferences Window under the File Menu.
- **Moving Internal (I):** When **True**, the selected Volume is moving from one Slot to another in the same Repository.
- **Simple Management (S):** When **True**, the selected Volume may only Move when a corresponding [Simple Management Rule](#) exists.
- **Move Pending (p):** When **True**, the selected Volume has been set in a Move Pending status by [TMSS10MovePending](#) and has exceeded its Move Date.
- **Overdue (o):** When **True**, the selected Volume is overdue at its Target Repository.
- **Next Move Date exceeded (p):** When **True**, the selected Volume has exceeded its Move Date.
- **Has Tag (A):** When **True**, the selected Volume is a Container and has a Security Tag assigned.
- **No Slot (n):** When **True**, the selected Volume has no Slot assigned.
- **Move Lock (I):** When **True**, the selected Volume is in a Move Lock and cannot be moved.
- **Update Lock (L):** When **True**, the selected Volume has an Update Lock and can only be updated by a User with tapemaster Rights.
- **Off-site (O):** When **True**, the selected Volume is at a Repository that is Offsite.
- **Move Date is a Holiday (H):** When **True**, the selected Volume has a Move Date that is marked as a Holiday in the Server Administration Window under the Administration Menu.
- **Audit Failure (a):** When **True**, the selected Volume has failed a physical audit with either TapeTrack Sync or another Reconciliation process.
