2025/12/01 11:56 1/4 Volume Serial Building Tool

# **Volume Serial Building Tool**

Utilize the Volume Serial Building tool to efficiently add large quantities of sequential volume ID's to selected media types.

## **Volume Serial Building Process**

Right-click the media type that you want to add volumes to and select Properties.

### **Building The Volume ID Sequence**

In the **Edit Media** Window click the Volume-ID Building tab. Press the **insert** key or right-click in the upper window and select **Before** or **After** depending on where you need the next range inserted.

Any unwanted or unneeded ranges can be removed by right clicking the required index and selecting Delete.

Repeat this process until you have enough ranges to create the barcodes you require. The ranges can be edited to encompass a range of numbers, letters or characters, or they can be set to a single value, such as making the last index **L5** to have all serials end in that value.

#### Add Volume ID's

Once you have built the required volume ID's, select the range required in the lower window. Right-

click the highlighted range and select Add to add the volumes to the default repository or Add To and select the required repository.

## **Alternative Methods**

Alternative methods for adding Volumes ID's:

- Excel Import Tool
- · Copy and paste
- Scan To Add
