

TapeMaster GUI

The TapeMaster GUI is divided into five main zones, main menu, customer filter, customer tree, inventory and associated tabs and status bar.

Main Menu

The [Main Menu](#) provides access to essential functions in TapeTrack including server connections, volume management, reporting and users.

Customer Filter

The [Customer filter](#) allows you to filter the customer list to display only customers whose Customer ID's meet the filter criteria.

Customers can also be searched by customer description by using the [Find Customer](#) function.

Customer Tree

The [Customer Tree](#) provides a summary of and navigation to all of the Customers, [Media Types](#), and

[Volumes](#) on the selected Server.

These Objects appear in a hierarchy of [Server Node](#), [Customer Nodes](#) and [Media Nodes](#).

Administrative Tabs

The Administrative tabs is the main access point for volume management within the TapeMaster GUI.

There are five tabs (plus one optional) and the Volume List properties (optional display) to display various information and functions. These tabs are:

- Inventory
- [DR Strategies](#)
- [Data Clusters](#)
- Simple Management
- [Uploaded File](#)
- Consignments

The highest use tab in the Administrative tabs is the Inventory tab. From here you can view where your volumes are, or a moving to, volume move dates, descriptions (and other attributes), view library health statistics as well as create reports.

The screenshot shows the TapeMaster GUI with the 'Inventory' tab selected. The left sidebar contains a tree view with 'Volumes' expanded, showing 'Scope' (Customer: Nashville Data Center, Media: LTO Cartridge), 'List Options' (Hide un-selected: False, Date Format: %A, %B %d, %Y, Attribute Field: Description), 'Library Health' (Score: 30, Health: Critical), 'Problems' (No Sync: -30, No DR Strategies: -10, No Offsite activi...: -10, Audit failures: -20), and 'Library Statistics' (Library, Offsite Vault). The main area is titled 'Volume Inventory' and contains a table with 11 records. The table columns are ID, Current Loca..., Target Loca..., Flags, Move T..., Due in, Container, Next M..., and Description. The records show various backup volumes with their locations and descriptions. Below the table is a 'Volume List Properties' section. At the bottom, there is a 'Repositories' section with icons for Initial Repository, Library, Next Repository, Offsite Vault, and Home Repository.

ID	Current Loca...	Target Loca...	Flags	Move T...	Due in	Container	Next M...	Description
0000001	Library		CnH		Unsped...	Unsped...	Perma...	Monday Backup
0000002	Library		CnH		Unsped...	Unsped...	Perma...	Tuesday Backup
0000003	Library		anH02		Unsped...	Unsped...	Perma...	Wednesday Backup
0000004	Library		CnH2		Unsped...	Unsped...	Perma...	Thursday Backup
0000005	Library		CnH2		Unsped...	Unsped...	Perma...	Friday Backup
0000006	Offsite Va...		CnH0tX2		Unsped...	Unsped...	Perma...	Sat/Sun Backup
0000007	Offsite Va...		CnH0tX2		Unsped...	Unsped...	Perma...	Monthly Backup
0000008	Offsite Va...		CnH0tX		Unsped...	Unsped...	Perma...	Monthly Backup
0000009	Offsite Va...		CnH0tX		Unsped...	Unsped...	Perma...	Monthly Backup
0000010	Offsite Va...		CnH0tX		Unsped...	Unsped...	Perma...	Monthly Backup
0000003	Offsite Va...		CnOt		Unsped...	Unsped...	Perma...	Monthly Backup

List contains 11 records

Repositories

Initial Repository, Library, Next Repository, Offsite Vault, Home Repository

Status Bar

The **Status Bar** displays information about the [Framework Server](#) currently connected to, the current status of your [TapeTrack Server license](#) and a clickable link to access [Free TapeTrack Support](#).
