

# Desktop Logon

To Logon from your desktop, select your server from the drop-down menu.

Enter your [User-ID](#) and [Password](#).

Check **No MD5** if using Active Domain Integration.

Click OK to login.

## Login Errors

### Incorrect User-ID

If you enter an incorrect [User-ID](#) you will see a popup displaying **User-ID is undefined**. Check to make sure your user-ID (or email if associated with your user-ID) is correct before logging in.

## Incorrect Password

If you enter an incorrect password you will see a popup displaying **Logon Failed**. Ensure your password is typed in correctly. If using Active Domain Integration, ensure **NO MD5** is checked.

After 4 successive incorrect logins, user access will be revoked as a security measure. To reactivate access your administrator will need to reset your password.
