

setremovechars

SetRemoveCharacters

Remove unwanted characters from a field.

Phase

This instruction is used by the TapeTrack Import Engine.

Syntax

SetRemoveCharacters(*field*, *characters*);

string *field*;
string *characters*;

field	Field to have characters removed.
characters	A string listing all of the characters that should be removed for a field.

Example

SetRemoveChars: Remove dashes and commas from a field.

```
SetRemoveChars("-",");
```

Example

SetRemoveChars: Remove plus symbol and quotation marks.

```
SetRemoveChars("+`");
```
