

settruncationchars

## SetTruncationChars

Characters that should be used to determine when to truncate a field.

### Phase

This instruction is used by the TapeTrack Import Engine.

### Syntax

**SetTruncationChars**(*field*, *chars*);

string *field*;  
string *chars*;

field	The field for this instruction.
chars	A string containing a list of characters which should be used for truncation.

### Example

**SetTruncationChars: Truncate the field VOLUME at any character- or [**

```
SetTruncationChars(VOLUME, "-[");
```
