

SetTruncationChars

Characters that should be used to determine when to truncate a field.

Phase

This instruction is used by the TapeTrack Import Engine.

Syntax

```
SetTruncationChars(field, chars);
```

| Variable | Type | Description | Min Length | Max Length |
|----------|--------|---|------------|------------|
| field | String | The field for this instruction. | 1 | 128 |
| chars | String | A string containing a list of characters which should be used for truncation. | 1 | 10 |

Example

Truncate the field VOLUME at any character- or [**

```
SetTruncationChars(VOLUME, "- [");
```
