

# SetInitialRepository

Set the Current, Target and Scanned Repository value for newly added Volumes.

## Phase

This instruction is used by the TapeTrack Synchronization Engine.

## Syntax

```
SetInitialRepository(repository);
```

Variable	Type	Description	Min Length	Max Length
repository	String	The initial Repository values for a new Volume.	1	4

If the Media Type for the added Volume has an Initial Repository value set in its options, this value will override any value set by SetInitialRepository.

## Example

Set the initial Repository for any new Volumes to LIBR.

```
SetInitialRepository("LIBR");
```
