

setinitialrepository

## SetInitialRepository

Set the Current, Target and Scanned Repository value for newly added Volumes.

### Phase

This instruction is used by the TapeTrack Synchronization Engine.

### Syntax

**SetInitialRepository**(*repository*); *string repository*;

|            |   |
|------------|---|
| repository | The initial Repository values for a new Volume. |
|------------|---|

If the Media Type for the added Volume has an Initial Repository value set in its options, this value will override any value set by SetInitialRepository.

### Example

**SetInitialRepository: Set the initial Repository values to LIBR.**

|                               |  |
|-------------------------------|--|
| SetInitialRepository("LIBR"); | Set the initial Repository values to LIBR. |
|-------------------------------|--|
