

setinitialrepository

SetInitialRepository

Set the Current, Target and Scanned Repository value for newly added Volumes.

Phase

This instruction is used by the TapeTrack Synchronization Engine.

Syntax

SetInitialRepository(repository); *string repository*;

repository | The initial Repository values for a new Volume.

If the Media Type for the added Volume has an Initial Repository value set in its options, this value will override any value set by SetInitialRepository.

Example

SetInitialRepository: Set the initial Repository values to LIBR.

SetInitialRepository("LIBR"); Set the initial Repository values to LIBR.
