2025/12/01 07:43 1/1 The CloudScan Mobile App

The Cloud Scan App

Overview

The TapeTrack Cloud Scan API (TCS) allows a scanning device to communicate with a 2nd device via HTTP/HTTPS.

This enables a mobile device, such as an iOS or Android phone to act as a barcode scanner that can be connected to a desktop PC.

Installing the App

Apple iPhone

To install the CloudScan app on your iPhone, simply click on the App Store and search for **Gazillabyte CloudScan**

Alternatively a link from iTunes can be found here https://itunes.apple.com/us/app/gazillabyte-cloudscan/id1226078030

Android

The android version can be downloaded here.

Scanning Tapes into the Desktop

Connecting to the Desktop

Scanning barcodes

Manually entering barcodes
