Overview

The TapeTrack Slack App allows you to query tape libraries and move tapes from one location to another by all from within Slack.

Prerequisites

1. A Slack Account
2. Open Data Protection API (ODPAPI) Adapter for TapeTrack or URL of an existing Adapter.
3. TapeTrack credentials.

Connecting the App

To install the App simply click the App icon on the slack app directory.

App Commands

Adding an Adapter

Before you can use the TapeTrack slack App you must first add at least one ODPAPI Adapter.

To add an adapter:

/tapetrack adapter add name arapter_url
