

# Overview

The TapeTrack Slack App allows you to query tape libraries and move tapes from one location to another by all from within [Slack](#).

## Prerequisites

1. A Slack Account
2. Open Data Protection API (ODPAPI) Adapter for TapeTrack or URL of an existing Adapter.
3. [TapeTrack credentials](#).

## Connecting the App

To install the App simply click the App icon on the slack app directory.

## App Commands

### Adding an Adapter

Before you can use the TapeTrack slack App you must first add at least one ODPAPI Adapter.

To add an adapter:

```
/tapetrack adapter add name arapter_url
```
