

Move Lists

The TapeTrack Lite Move Lists function allows you to manage view moving **Volumes** for each **Media** type.

The **Move list** window displays all **Volumes** currently in a move status including **Volume-ID**, current and target location, elapsed move time, scanned out status and whether the **Volume** is overdue at its intended target **Repository**.

Move Lists Process

Select Move Lists

Select Move Lists from the **Task Menu** and click Next to continue.

Options

This will open the **Options** window. If required you can set the location for the log files to be written

to, or leave the default.

To change the default directory, click in the field to the right of the Log File Folder and click on the (...) button and select directory.

Click Next to continue.

Customer Selection

Select the **Customer** that you want to manage **Volumes** for by double-clicking the **Customer-ID** or left-clicking the **Customer-ID** and clicking Next at the bottom of the page.

 TapeTrack Lite™ - Customer Selection X

Instructions

The Customer Selection screen allows you to select one TapeTrack Customer that will be the subject of operations in subsequent screens.

You may select a Customer by double clicking the Customer, or by clicking the Customer and pressing the Next button.

Customer	Volumes	Moves
New York Data Center	56	0
Los Angeles Data Center	23	7
North Carolina Data Center	56	23
Nashville Data Center	52	9
	187	39

Move List Right-Click Options

- **Edit**
 - **Copy:** Volume-ID's can be copied to the Windows clipboard by selecting the required volumes and right-clicking the highlighted Volume/s and selecting Edit → Copy.
- **Export:** Reports can be exported by selecting the required volumes and right-clicking the highlighted Volume/s and selecting Export.
- **Operations**
 - **Cancel Move:** Volumes can have their move revoked or canceled by right-clicking highlighted Volumes and selecting Operations → Cancel Move and clicking OK to the **Failed Operations** window (warning shows because Volume/s are being moved back to current Repository without being confirmed at target Repository)

The Move List screen allows you to see moving Volumes for each Media Type. You can also perform operations such as cancelling existing move requests.
