

Move List

The move list displays all tapes currently in a move status including volume ID, current and target location, elapsed move time, scanned out status and whether the volume is overdue at its intended target.

Volumes can have their move revoked or canceled by right clicking selected volumes and choosing **Operations - Cancel Move**

The screenshot shows the 'TapeTrack Lite™ - Move Lists' application window. It features an 'Instructions' section at the top, followed by a table of tape volumes. A context menu is open over the first row, with the 'Cancel Move' option selected. The table columns are: Volume, Current, Target, Move Time, Scanned-Out, and Overdue. The bottom of the window has navigation buttons: '< Back', 'Next >', and 'Cancel'.

Volume	Current	Target	Move Time	Scanned-Out	Overdue
000014L6	Offsite Vault	Library	D21:21:40:31	No	No
00001	Offsite Vault	Library	M2:51	No	No
00002	Offsite Vault	Library	M1:11	No	No
