

Move Lists

The move lists displays all tapes currently in a move status including volume ID, current and target location, elapsed move time, scanned out status and whether the volume is overdue at it's intended target.

Volumes can have their move revoked or canceled by right clicking selected volumes and choosing **Operations - Cancel Move**

The screenshot shows the 'TapeTrack Lite™ - Move Lists' application window. At the top, there is an 'Instructions' box with the text: 'The Move List screen allows you to see moving Volumes for each Media Type. You can also perform operations such as cancelling existing move requests.' Below this is a table with columns: Volume, Current, Target, Move Time, Scanned-Out, and Overdue. A context menu is open over the first row, with 'Cancel Move' selected. At the bottom of the window, there are navigation buttons: '< Back', 'Next >', and 'Cancel'. A status bar at the bottom left shows 'LTO Cartridge'.

Volume	Current	Target	Move Time	Scanned-Out	Overdue
000014L6	Offsite Vault	Library	D21:21:40:31	No	No
