

Move Lists

The **Move list** window displays all **Volumes** currently in a move status including **Volume-ID**, current and target location, elapsed move time, scanned out status and whether the **Volume** is overdue at its intended target **Repository**.

Move List Right Click Options

- **Edit**
 - **Copy:** **Volume-ID's** can be copied to the Windows clipboard by selecting the required **volumes** and right clicking the highlighted **Volume/s** and selecting **Edit** → **Copy**.
- **Export:** Reports can be exported by selecting the required **volumes** and right clicking the highlighted **Volume/s** and selecting **Export**.
- **Operations**
 - **Cancel Move:** **Volumes** can have their move revoked or canceled by right-clicking highlighted **Volumes** and selecting **Operations** → **Cancel Move**

The screenshot shows the 'TapeTrack Lite™ - Move Lists' window. At the top, there is an 'Instructions' section with the text: 'The Move List screen allows you to see moving Volumes for each Media Type. You can also perform operations such as cancelling existing move requests.'

Below the instructions is a table with the following columns: Volume, Current, Target, Move Time, Scanned-Out, and Overdue. A context menu is open over the first row (Volume 000014L6), showing options: Edit, Export, Operations, and Cancel Move. The 'Cancel Move' option is highlighted by the mouse cursor.
