

Move Lists

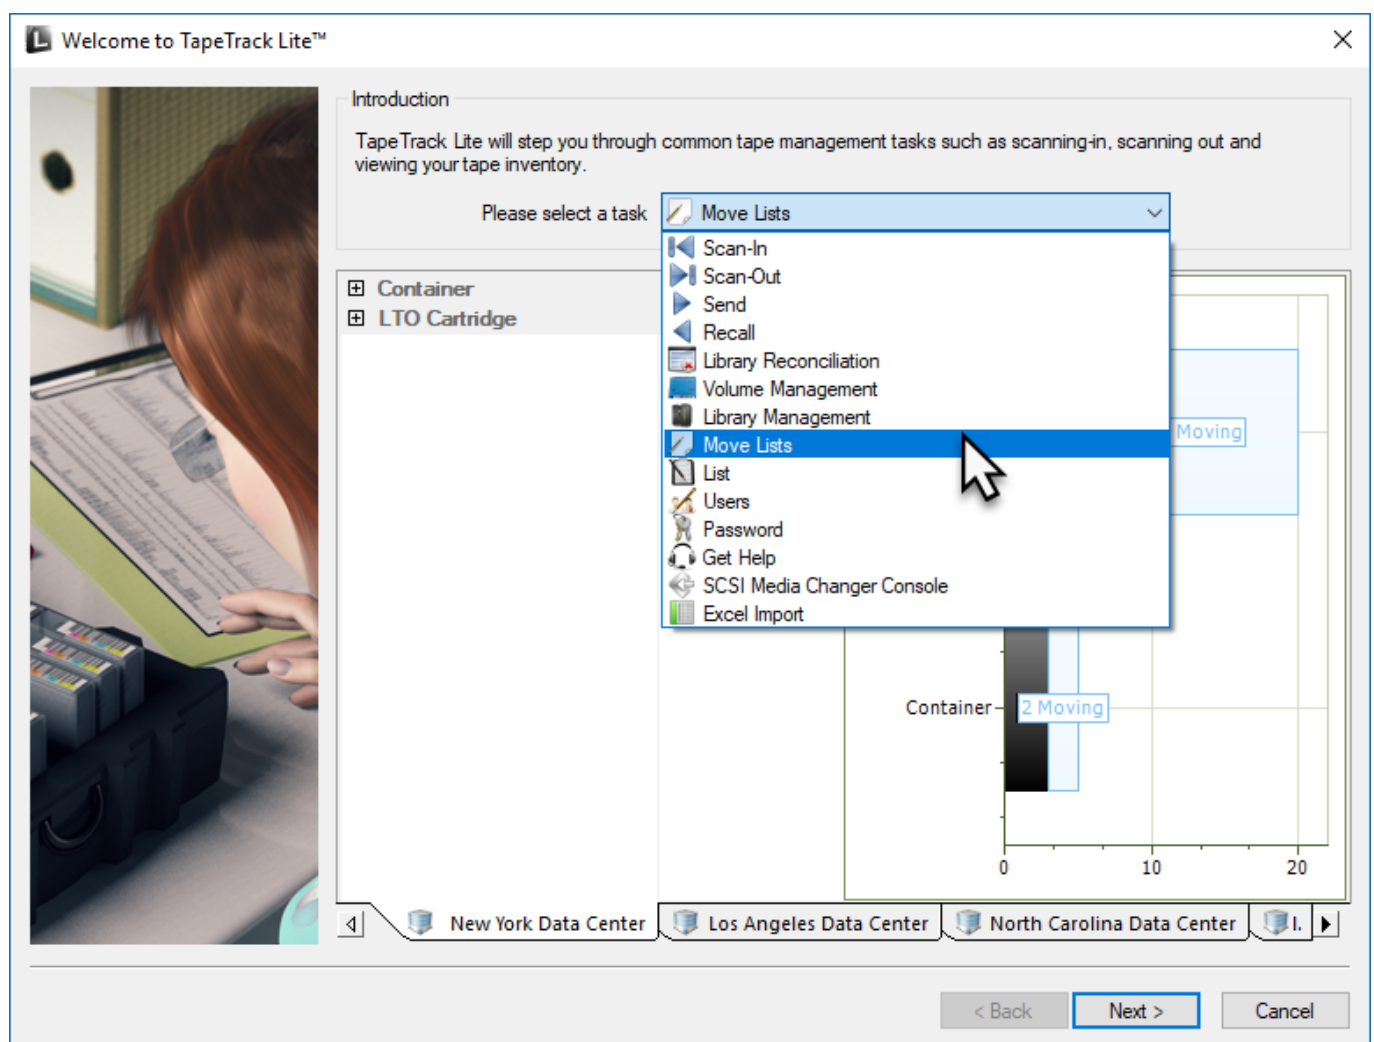

The TapeTrack Lite Move Lists function allows you to manage view moving **Volumes** for each **Media** type.

The **Move list** window displays all **Volumes** currently in a move status including **Volume-ID**, current and target location, elapsed move time, scanned out status and whether the **Volume** is overdue at its intended target **Repository**.

Move Lists Process

Select Move Lists

Select Move Lists from the **Task Menu** and click Next to continue.

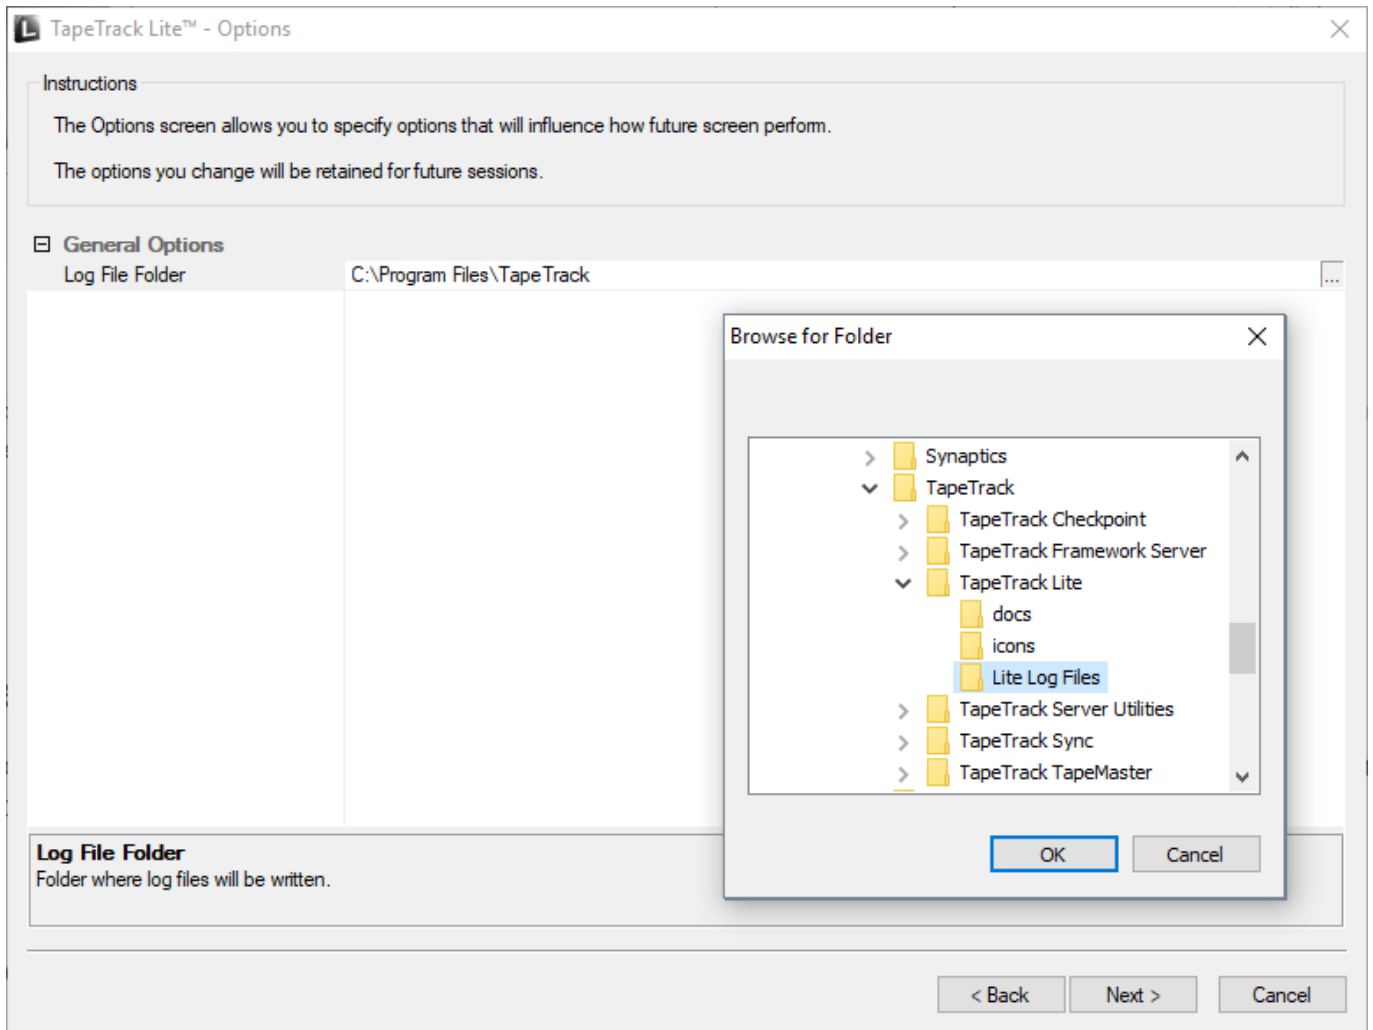

Options

This will open the **Options** window. If required you can set the location for the log files to be written

to, or leave the default.

To change the default directory, click in the field to the right of the Log File Folder and click on the (...) button and select directory.

Click Next to continue.

Customer Selection

Select the [Customer](#) that you want to manage [Volumes](#) for by double-clicking the [Customer-ID](#) or left-clicking the [Customer-ID](#) and clicking Next at the bottom of the page.

Move List

The **Move Lists** window displays moving [Media](#) separated into tabs by [Media](#) type

Each **Move Lists** tab displays:

- [Volume-ID](#)
- Current [Repository](#)
- Target [Repository](#)
- Move Time
- Scanned-Out status
- Overdue status

Instructions

The Move List screen allows you to see moving Volumes for each Media Type
