Recall

The Recall task allows you to request media back from another repository, such as your off-site vendor.

Select Recall

Select Recall from the Library Management Task's drop-down menu.

×

Options

This will open the Options window. If required you can set the location for the log files to be written to, or leave the default. To change the default directory, click in the right of the Log File Folder and click on the (...) button and select directory.

Click Next to continue.
