2025/12/01 12:40 1/7 Recall

# Recall

The Recall task allows you to request Media back from another Repository, such as your offsite vendor or remote storage facility.

# **Recall Process**

The Recall video is intended as a companion to the instructions.

Best results are obtained by reading the instructions and then viewing the implementation of the process via the video

#### **Select Recall**

Select Recall from the **Task Menu** and click Next to continue.

### **Options**

This will open the **Options** window. If required you can set the location for the log files to be written to, or leave the default.

To change the default directory, click in the field to the right of the Log File Folder and click on the (...) button and select directory.

Click Next to continue.

#### **Selecting a Customer**

Select the account or Customer that you want to manage Volumes for by double-clicking the Customer Description or Customer-ID or left-clicking the Customer Description or Customer-ID and clicking Next at the bottom of the page to continue.
