2025/12/01 10:05 1/8 Recall

Recall

The Recall task allows you to request Media back from another Repository, such as your offsite vendor or remote storage facility.

Recall Process

Select Recall

Click the arrow to open the drop box menu and select Recall from the **Task Menu**.

Options

This will open the **Options** window. If required you can set the location for the log files to be written to, or leave the default.

To change the default directory, click in the field to the right of the Log File Folder and click on the (...) button and select directory.
