

Scanning-In

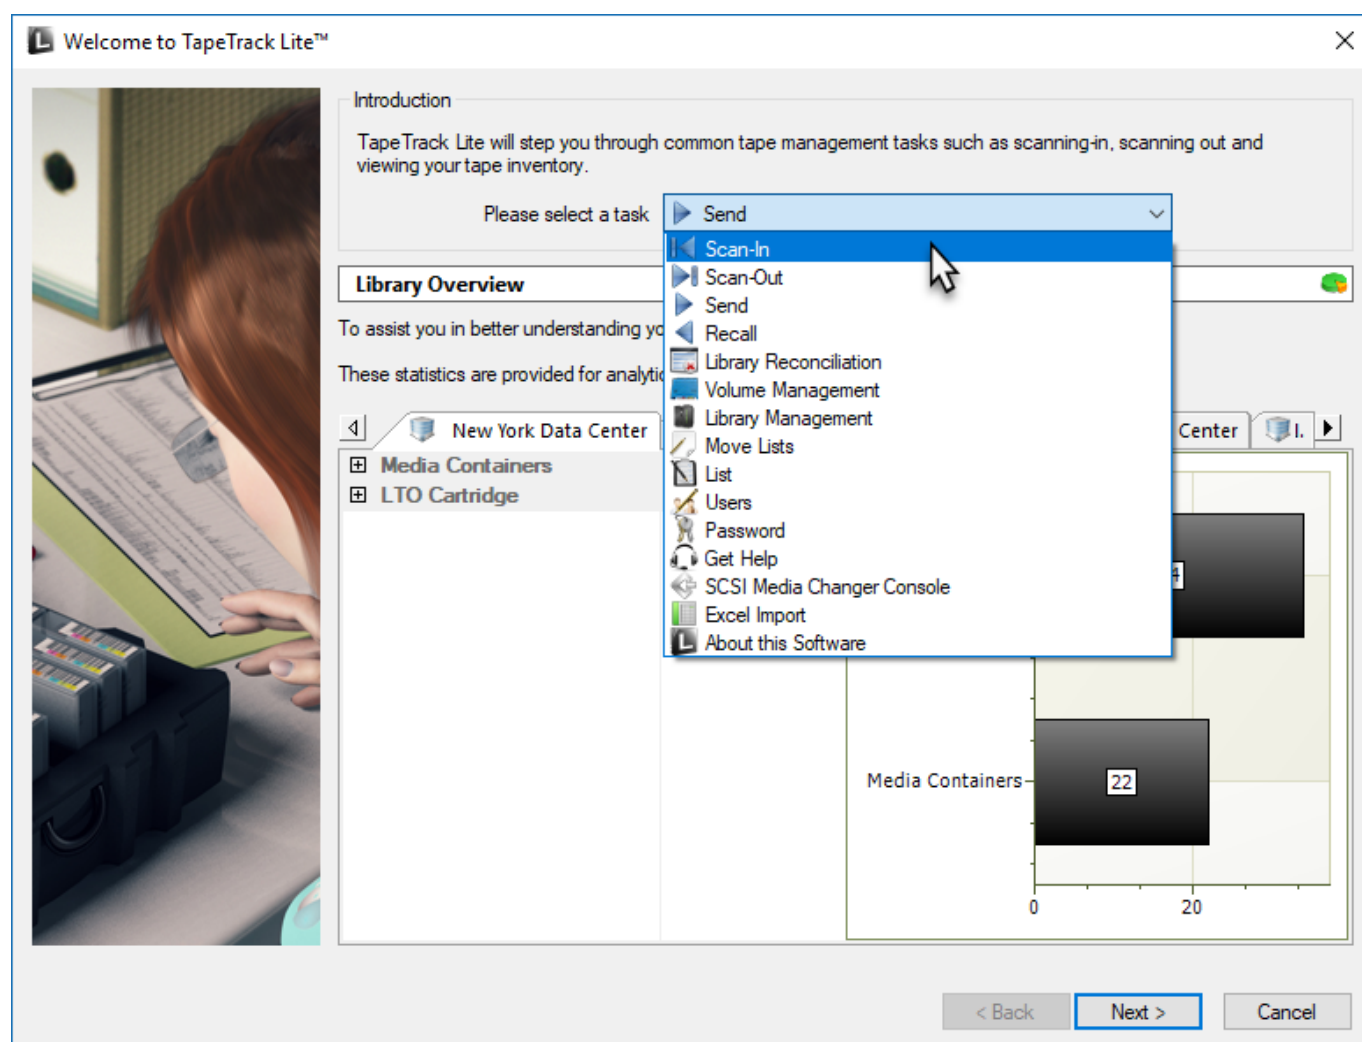

The TapeTrack Lite Scan In function allows you scan in volumes in a move status to the current repository.

TapeTrack Lite will only allow you to initiate the Scan-In task if there are tapes currently in an Incoming status.

Scan In Process

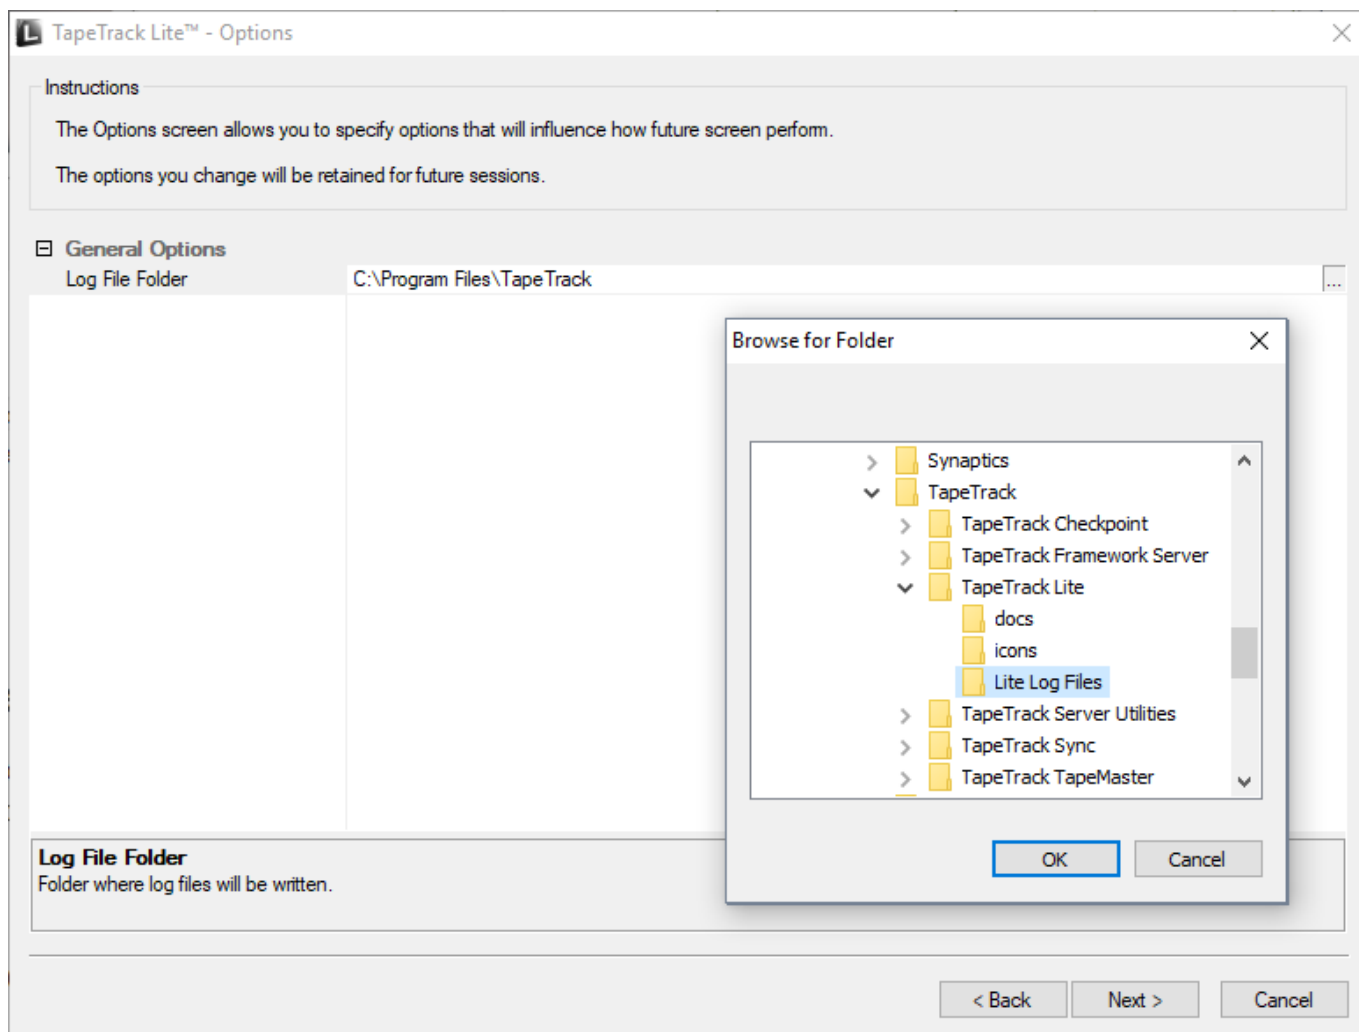

Select Scan In

1. Select Scan -In from the Library Management Task's drop-down menu.
2. Once you have selected the required task, click Next to progress to the next screen.

Options

This will open the Options window. If required you can set the location for the log files to be written to, or leave the default. To change the default directory, click in the right of the Log File Folder and click on the more options button (...) and select the preferred directory.

Customer Selection

Select the account or [customer](#) that you want to manage tapes for by double-clicking the [customer-ID](#) or left-clicking the [customer-ID](#) and clicking Next at the bottom of the page to continue.
