Scan-In

The TapeTrack Lite Scan In function allows you Scan-In Volumes in a move status to the Currently Selected Repository.

TapeTrack Lite will only allow you to initiate the Scan-In task if there are tapes currently in an incoming status.

Scan-In Process

Select Scan-In

- 1. Select Scan-In from the drop-down task menu.
- 2. Once you have selected the required task, click Next to progress to the next screen.

Options

This will open the **Options** window. If required you can set the location for the log files to be written to, or leave the default. To change the default directory, click in the right of the Log File Folder and click on the more options button (...) and select the preferred directory.

Customer Selection

Select the account or Customer that you want to manage tapes for by double-clicking the Customer-ID or left-clicking the Customer-ID and clicking Next at the bottom of the page to continue.
