

# Setting Move Dates Using VolumeAuto.txt

**VolumeAuto.txt** uses Volume filters and date values that can be employed to override default return dates for matched Volumes.

## VolumeAuto.txt File Format

The file is in CSV Format, and contains the following fields:

- Volume Filter in Customer.Media.Volume Format
- Move Date in the following formats:
  - YYYY-MM-DD
  - \*+n (where \* is today, and n is an integer days offset)
  - Y+n (where Y is the first day of the next year, and n is an integer years offset)
  - y+n (where y is the last day of the next year, and n is an integer years offset)
  - M+n (where M is the first day of the next month, and n is an integer months offset)
  - m+n (where m is the last day of the next month, and n is an integer months offset)
- Description
