

# Overview

The message list allows administrators to broadcast messages to users which display when they login. These messages also can be configured with general responses to gain quick feedback from Users.

## Message List

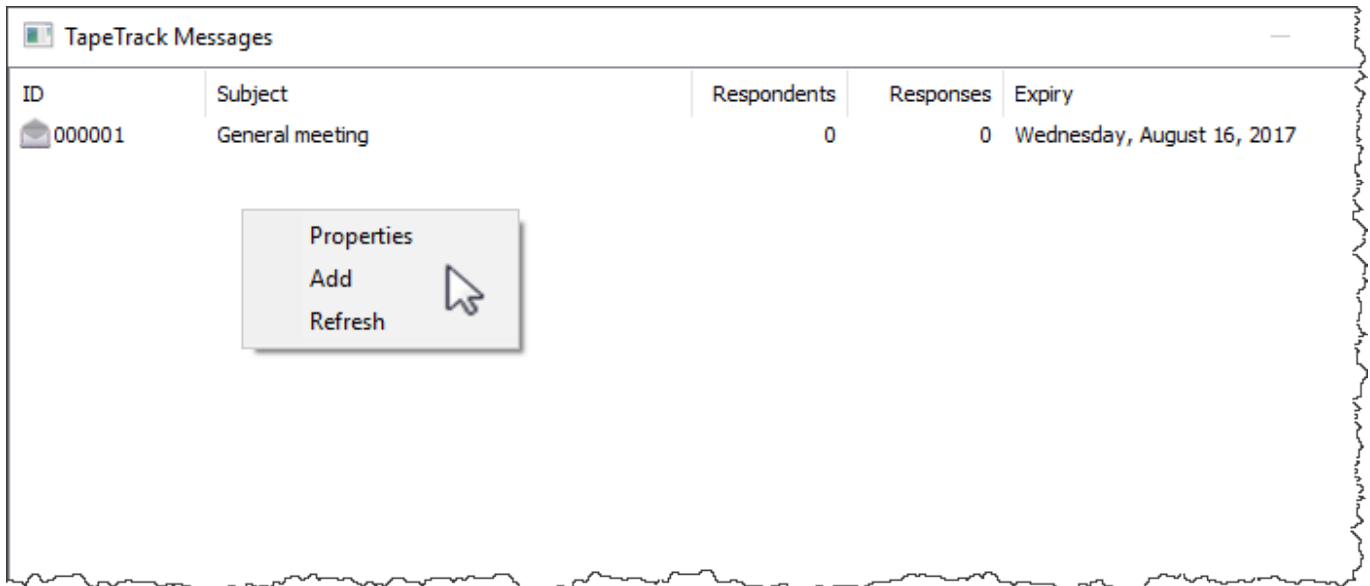

To access the message list click Administration → Message List from the main menu.

## Right-Click Operations

Right-clicking in the Message List provides three operations:

- **Properties**: Launches the Edit Message Window. This can also be done by double-clicking on a message.
- **Add**: Launches the New Message Window. This can also be done by pressing the Insert key on the keyboard.
- **Refresh**: Refreshes the Message List to display the most up-to-date information. This can also be done by pressing the F5 key on the keyboard.

| ID     | Subject         | Respondents | Responses | Expiry                     |
|--------|-----------------|-------------|-----------|----------------------------|
| 000001 | General meeting | 0           | 0         | Wednesday, August 16, 2017 |

A context menu is displayed over the table with the following options: Properties, Add, and Refresh. A mouse cursor is pointing at the 'Add' option.

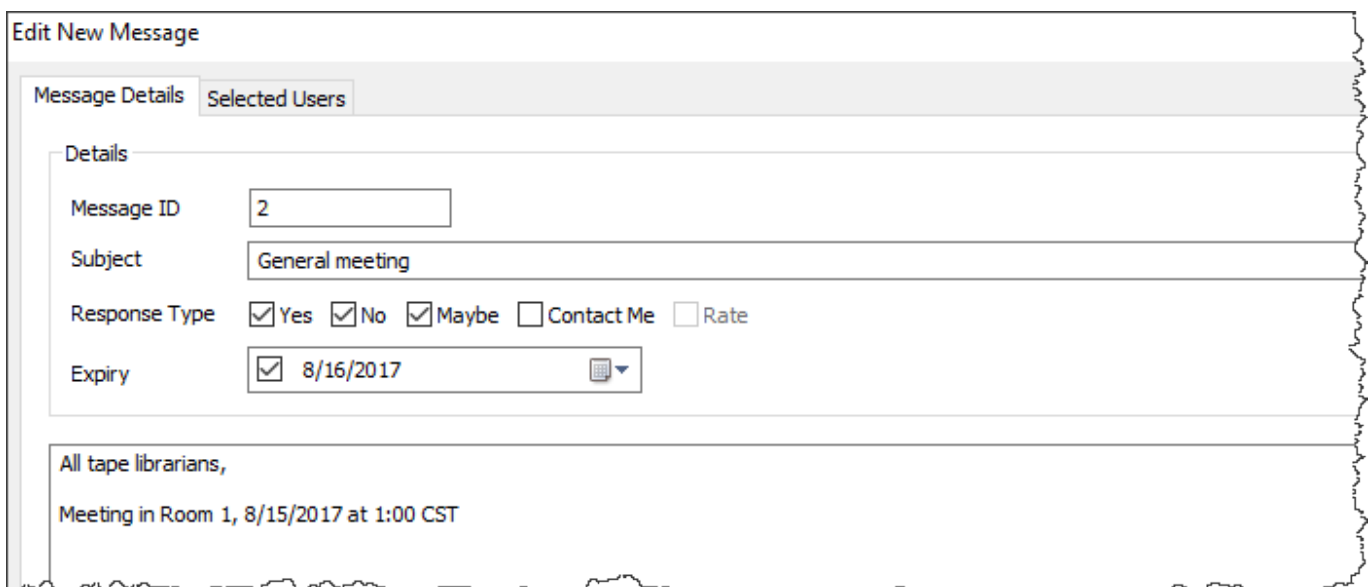

## Adding a New Message

To add a new message to the **Message List**:

Right-click in the Message List and select Add or press the Insert key on the keyboard.

The **New Message** window is comprised of four modifiable fields:

- **Subject:** The title of the message.
- **Response Type:** Adds “Yes”, “No”, “Maybe”, and/or “Contact Me” buttons to the bottom of the message.
- **Expiry:** The date when the message should expire and no longer display.
- **Message:** The body of the message to be sent.

**Edit New Message**
