

Server Options

Overview

The Server Options allow global settings for Customer, Data Clusters and Simple Management Rules in one location.

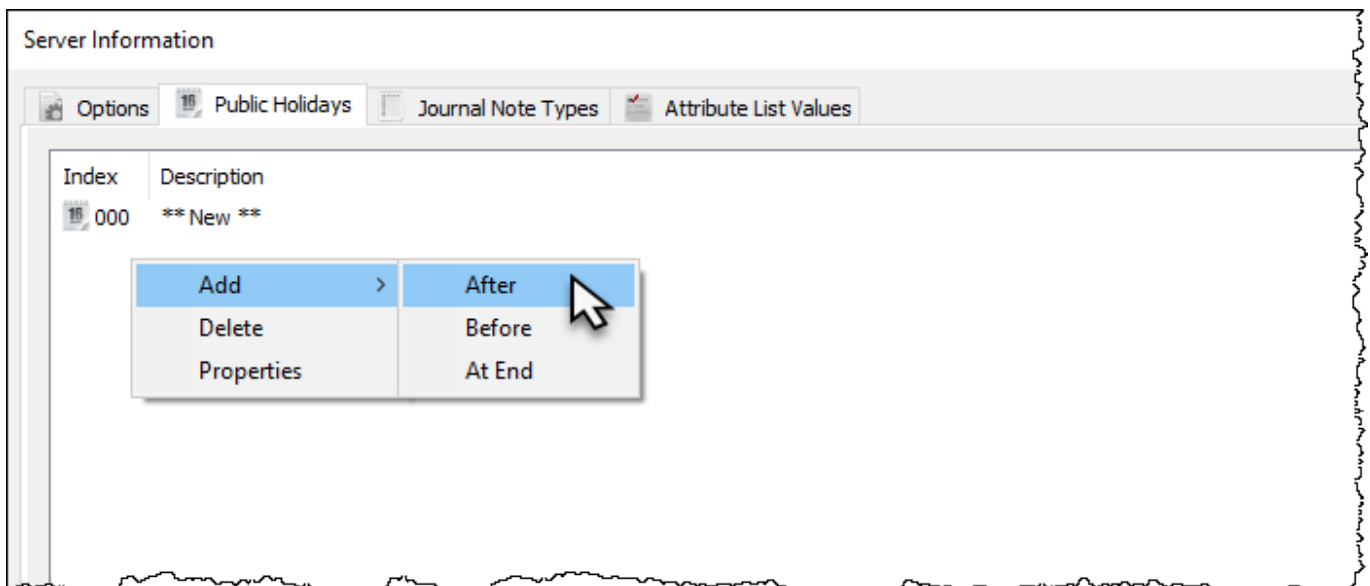

Server Options

Options

Options tab allows entry for:

- Extension Characters or additional characters that can be used in identifiers such as Data Clusters
- Customer-ID Filter. Set acceptable customer ID filters to enforce format rules. e.g. ???? will force all customer ID's to be four characters.
- Friday Weekend. Setting to true will start the weekend on Friday, false will start the weekend on Saturday.
