

Server Statistics

Overview

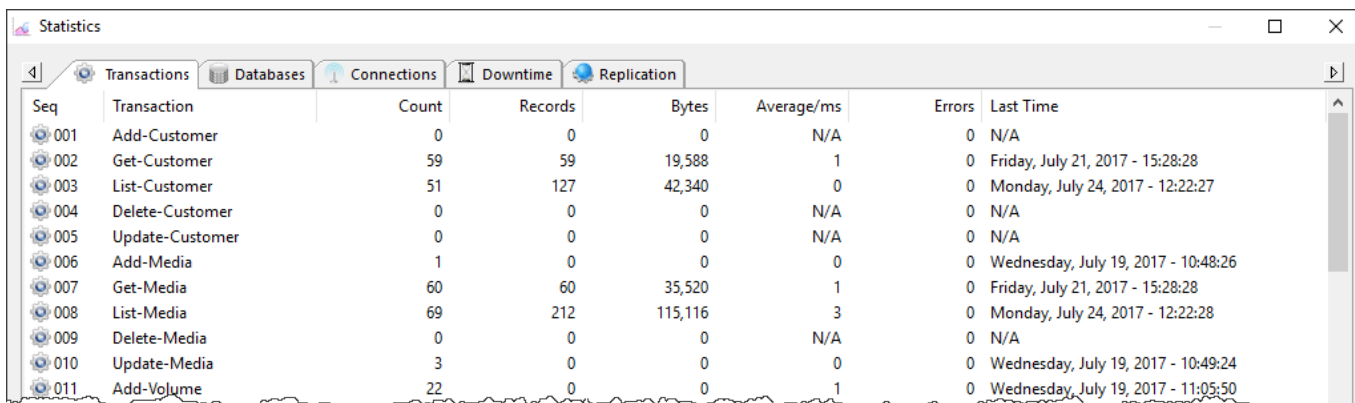

Server statistics displays a list of processes or commands between TapeTrack software and the FrameWork Server.

Server Statistics

the Server Statistics window displays a list of transactions between the users Tapetrack software, such as TapeMaster or Lite, and the FrameWork Server Database. The information includes:

Transactions

- Transaction description
- Number of times that transaction type has been executed
- Number of records accessed with that type of transaction
- Bytes transmitted
- Average transaction time
- Error count
- Last time transaction executed

The screenshot shows a window titled "Statistics" with a tabbed interface. The "Transactions" tab is active, displaying a table with the following data:
