

Creating A Zone

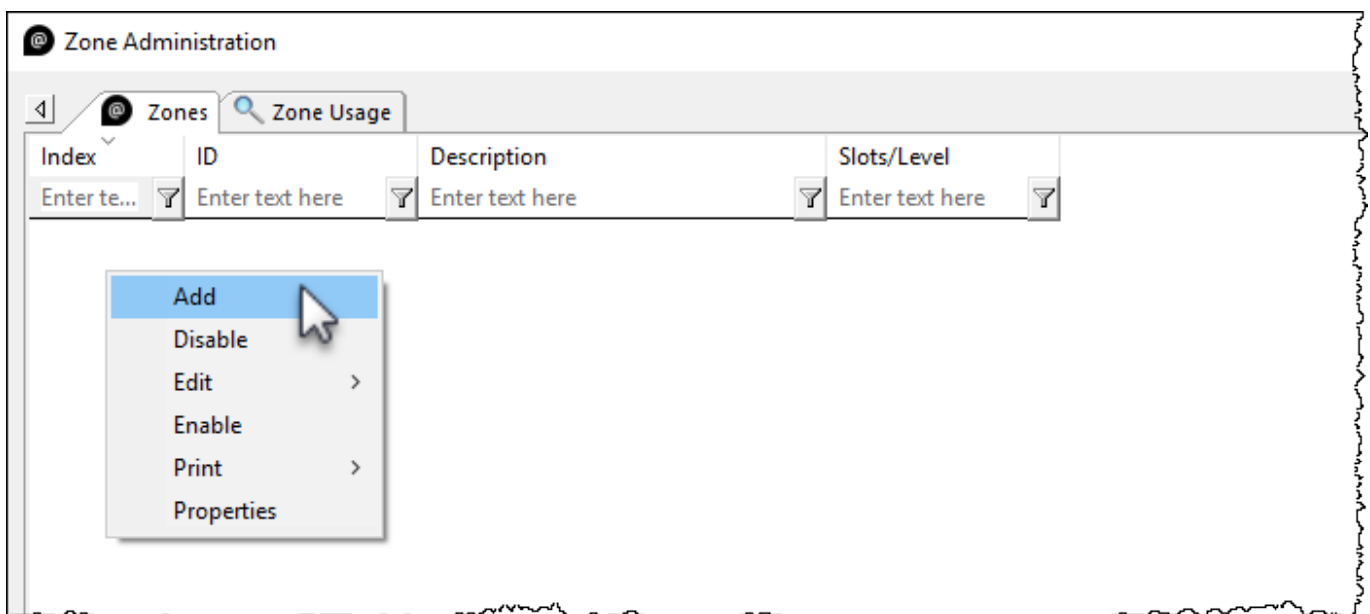

Setting up a zone's parameters allows TapeTrack to give you the specific zone, shelf and slot address to efficiently store and pick volumes.

Creating A Zone

From the menu click Administration→Zone Administration.

Right click in the main window and select Add.

In the Identity tab add:

- Zone ID
- Zone description
- Total number of slots

- Number of slots per row
- Customer filter (optional)

New Zone ✕

Identity

Attributes

Index	<input type="text" value="0"/>
	<input checked="" type="checkbox"/> Active
ID	<input type="text" value="GEMTRAC1"/>
Description	<input type="text" value="GemTrac Rack 1"/>
Slot Range	<input type="text" value="1"/> to <input type="text" value="450"/> = <input type="text" value="450"/>
Slots/Level	<input type="text" value="45"/>
Customer Filter	<input type="text" value="US03"/>

Click OK to save.

Slotting

Slotting can be done manually or automatically. For more information, see [Slotting](#).
