Selecting A Container And Adding Volumes

Adding Volumes From Windows Clipboard

Copy volume ID's to your windows clipboard,

To paste in volumes you must either select a container in the same media type as the volumes or ensure copied volume ID's are fully qualified

Right click a container and select Properties

Open the Container Contents tab.

Right click and select Edit → Paste Volumes

Click Save to close window.

Adding Volumes Via Scan Window

Right click container and select Properties, or double click.

Select Container Contents tab.

Right click main window and select Scan to Assign Volume to open scan-in window.

Scan volumes using your preferred method.

Click X at the top right of the scan-in window to close.

Click Save to close container properties window.
