Selecting A Container And Adding Volumes

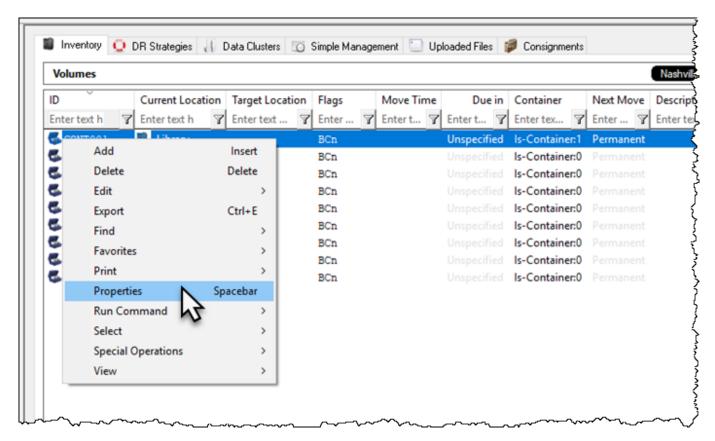

Adding Volumes From Windows Clipboard

Copy volume ID's to your windows clipboard,

To paste in volumes you must either select a container in the same media type as the volumes or ensure copied volume ID's are fully qualified

Right click container and select Properties

Select the **Container Contents** tab.

Right click main window and select Edit → Paste Volumes

Click Save to close container properties window.

Adding Volumes Via Scan Window

Right click container and select Properties, or double click.

Select Container Contents tab.

2025/01/21 master:container_add_volume_inventory https://rtfm.tapetrack.com/master/container_add_volume_inventory?rev=1536285487

Right click main window and select Scan to Assign Volume to open scan-in window.

Scan the volumes, using your preferred scanning method.

If scanning unqualified barcodes ensure correct Customer-ID and Media-ID are set in the **Default** fields in the top right of the scan window.

Click X at the top right of the scan-in window to close.

Click Save to close container properties window.
