2025/12/01 14:49 1/2 User Groups

Overview

Groups are used to assign access privileges to a collection of users without the need to assign them to each user on an individual basis. This also makes it efficient to manage access changes to the entire group/s without the need to know what users belong to which group.

Creating A Group

if creating a new group from the Add a New User window skip to Edit New Group

On the Administration drop down menu in TapeTrack TapeMaster select Group/User Administration.

Select the Groups tab and right click in the main window and select Add Group.

Edit New Group
