

User Groups

Groups are used to assign access privileges to a collection of users without the need to assign them to each user on an individual basis. This also makes it efficient to manage access changes to the entire group/s without the need to know what users belong to which group.

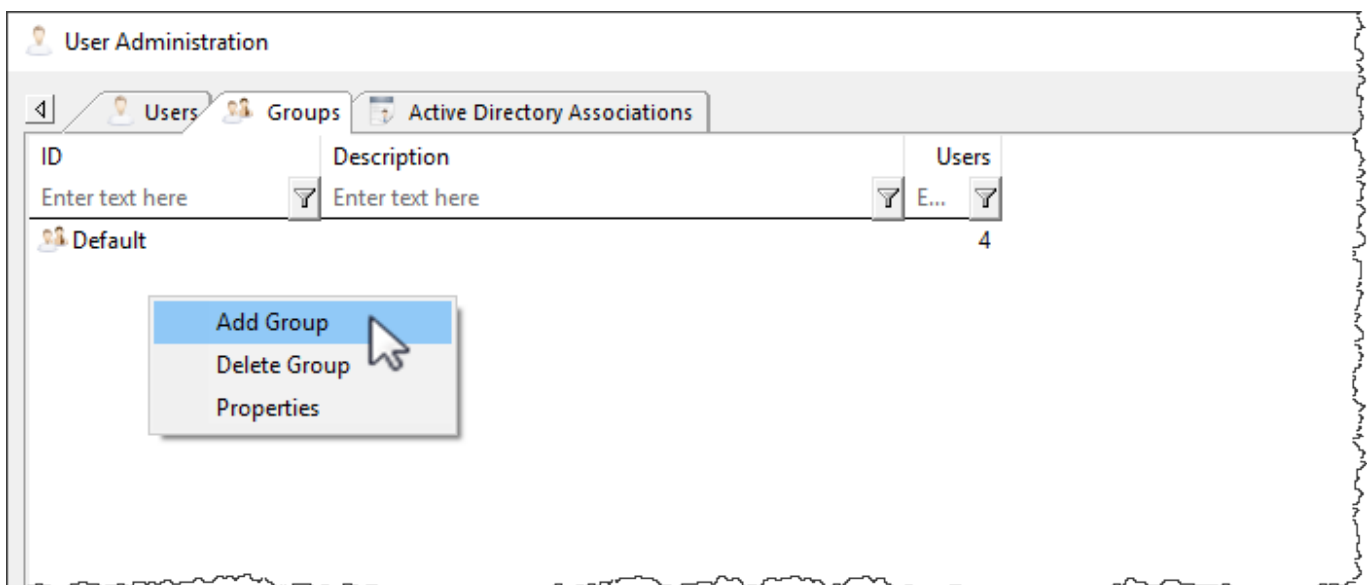

Adding and Managing a Group

 If creating a new group from the [Add a New User](#) window skip to [Edit New Group](#)

On the Administration drop-down menu in TapeTrack TapeMaster select Group/User Administration.

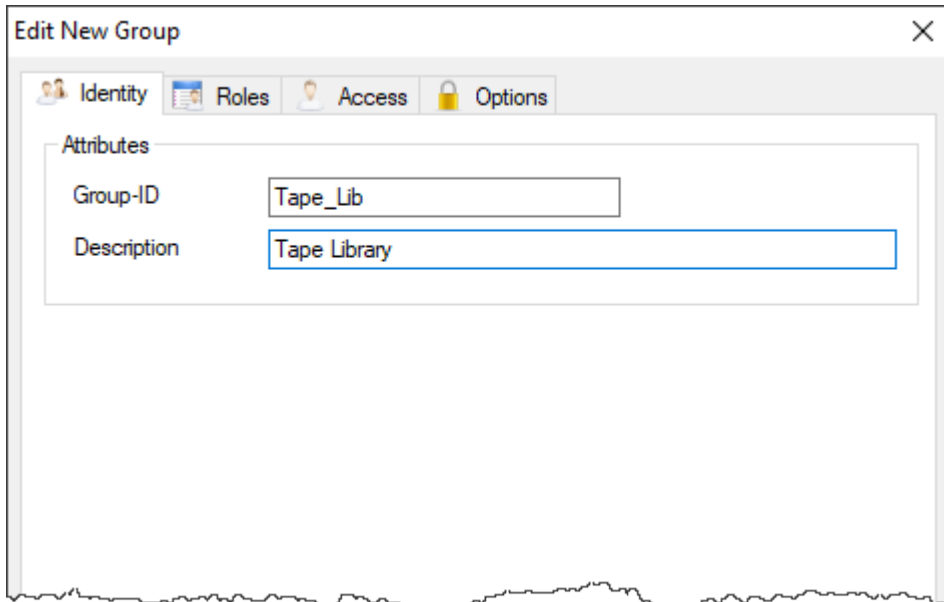

Select the Groups tab and right-click in the main window and select Add Group.

Edit New Group

Identity

In the Identity tab enter a unique group ID (max 10 alphanumeric characters) and a group description.

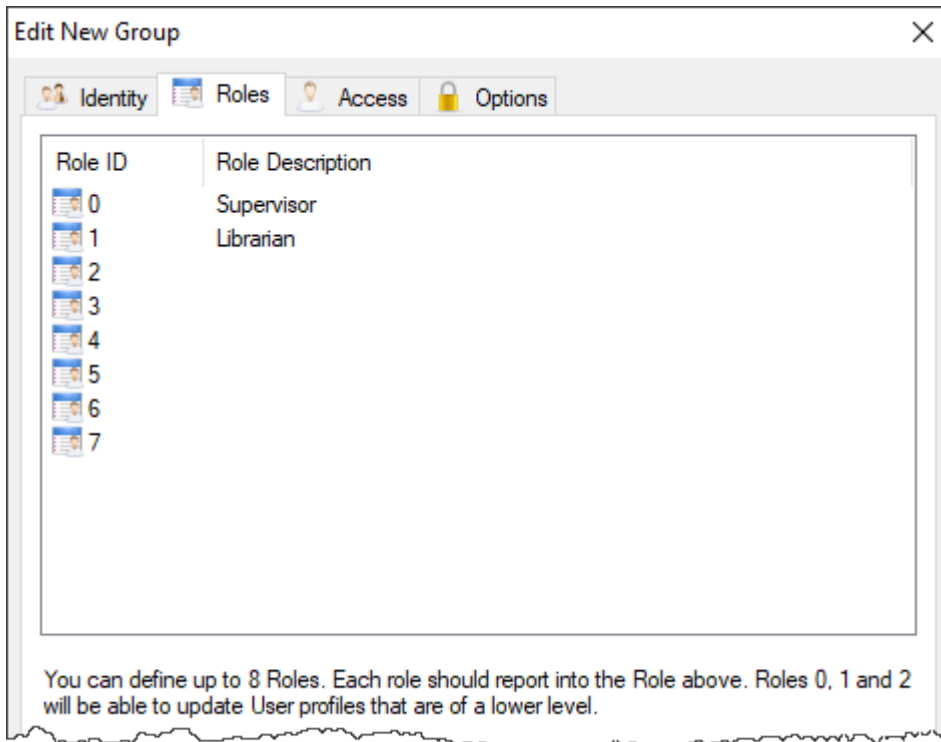

Roles

Set positional role description required (optional) for hierarchy of users within the group. Roles rank from highest (0) to lowest (7)

Roles do not alter permissions of a User in the TapeMaster product, however, roles can be used in TapeTrack Lite to view Users and modify their information. Users of a lower Role-ID Number (0, 1 or 2) can view and modify Passwords for Users of a higher Role-ID Number using the [User Management](#) Task in [TapeTrack Lite](#).

Access

Assign group access by adding required ID/s or ID ranges Customer- ID field and changing to true the types of access needed.

- Read allows any user assigned to the group to read information on the defined Customer-ID.
- Write allows any user assigned to the group to write information on the defined Customer-ID.
- Alter allows any user assigned to the group to add or delete information on the defined Customer-ID.

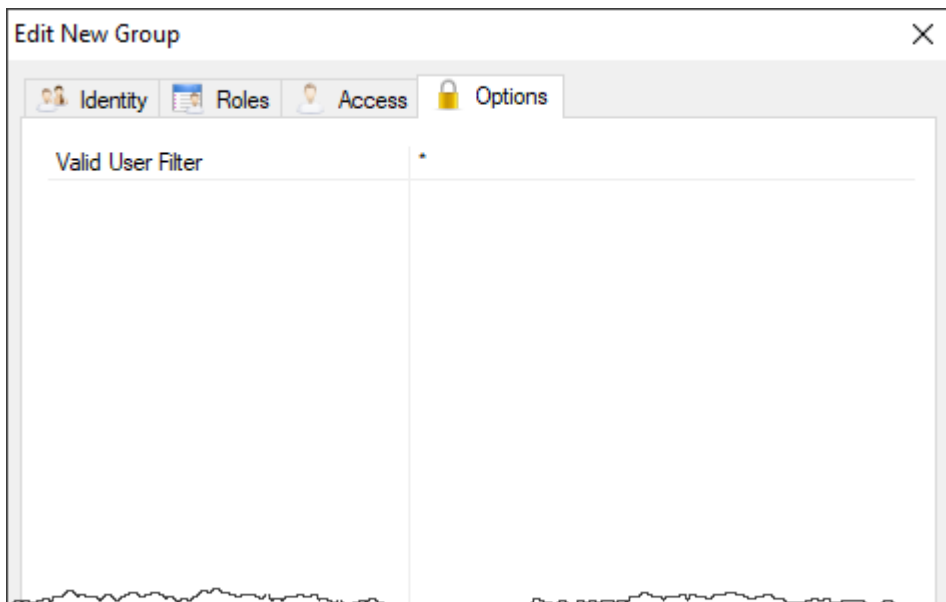

Click Add to assign the Customer-ID and access rights. The assigned ID and rights will now be displayed on the right window and predicted access shown below. You can add as many Customer-ID and access rights combinations as required by repeating the above process.

Customer Filter Examples	
*	All customers
US*	All customers starting with US
US??	All four character customers starting with US
US01	Only US01

Options

Set User-ID formats that any user assigned to this group must adhere to. If left as * any ID format will be accepted.

User-ID Filter Examples	
*	Any format
LB*	User-ID's must start with LB
*LB	User-ID's must end with LB
LB??????	User-ID's start with LB and be 8 characters long

Click OK to save new group.
