Customer Tree - Attribute View

In the default media type view, the information is displayed in the hierarchy of Owner, Customer and Media types. Attribute view differs in the information is displayed in the hierarchy Owner, Customer, featured attribute/s separated into matching or unique values, media type and Repository or location.

This allows you to quickly identify and display of an attribute category and value.

Prerequisites

The Customer must have a media type, at least one extended attribute and at least one extended attribute set to featured (true).

Adding an extended attribute

Last update: 2025/10/02

Enabling Attribute View

Right click on the required Customer-ID, select Properties.
