Permanent License

A permanent license key will allow you to operate the TapeTrack software without restriction until the expiry date associated with your license occurs.

Permanent license/s to TapeTrack are restricted to those who have a written End User License Agreement (EULA) with GazillaByte.
To obtain a permanent license:

If you are upgrading from a free license directly to a permanent license follow the instructions in the 90 day trial license section, making sure you enter the correct expiry date and not a 90 day date.

If extending the expiry date on an already permanent license or upgrading from a 90 day license:
Open TapeTrack TapeMaster and login with the user name **tapemaster** (case sensitive) and leave password blank (or use your password if it has been changed).

From the menu click `Help` → `Framework Server Licensing`

Click `Export license to a file` and save the file with a descriptive name (e.g.current_license.cfg).

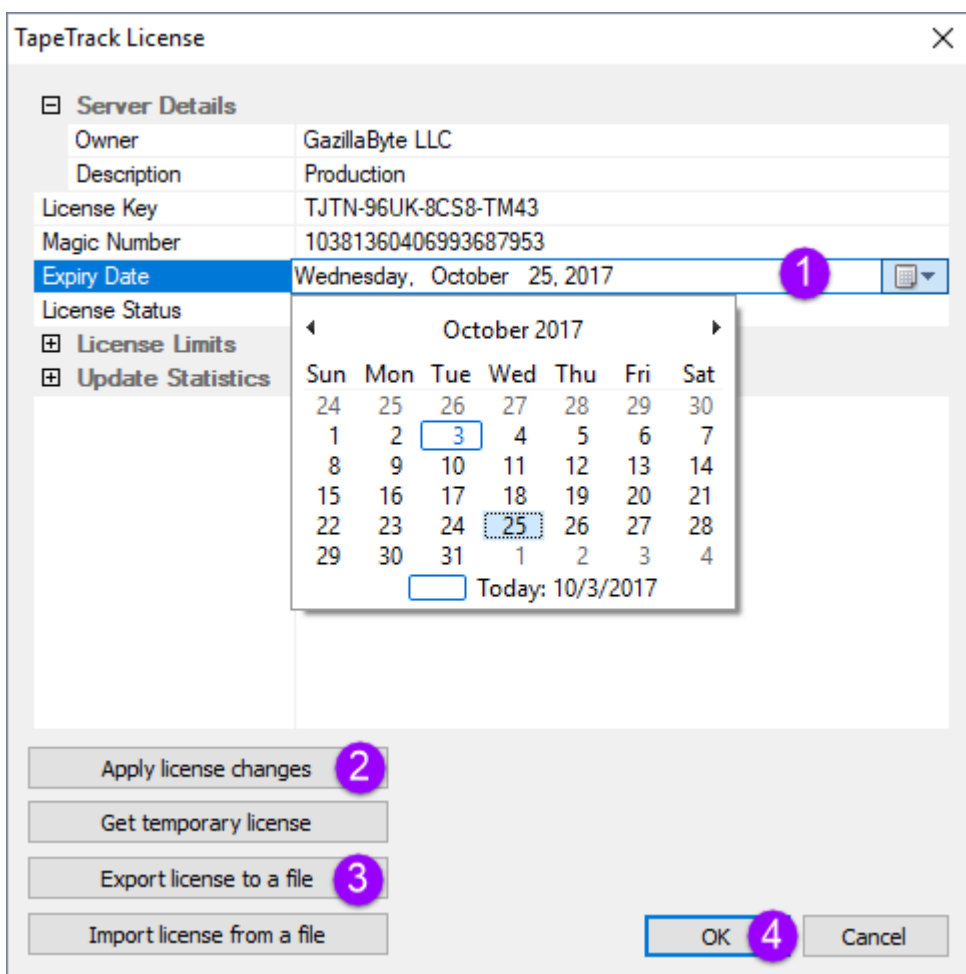

If you are close to your expiry date you will receive a warning about a short expiry date, click Yes to continue.
Short Expiry Warning

The license you are exporting has an expiry date with the next 5 days.

Are you sure you want to export it?

Yes   No

Change the expiry date to the new end date (1) and click `Apply license changes` (2) and `Export license to file`(3), this time saving under a different name (e.g. license_export.cfg).

Click `OK`(4) to exit.

Export license to a file (3)

Import license from a file   OK (4)   Cancel

Forward this file to support@gazillabyte.com with a subject indicating that you require a new license key.

Once a new key has been cut you will receive a new license config file with instructions for installation.

Click `Import license from a file` and select the first file exported (e.g.current_license.cfg).

Click `Apply license changes` to reinstate your old license values.

If you have left this process until after your license has expired, clicking `Get temporary license` and `OK` will give a 12 day license to enable you to keep using TapeTrack until your new key is applied.
