

# Importing License

While logged to in TapeMaster as [tapemaster](#), or [user-ID with tapemaster rights](#)

From the menu click Help → Framework Server Licensing

 If the menu option **Framework Server Licensing** is grayed out and inaccessible, you do not have sufficient privileges (tapemaster rights) to alter the software license

Click **Export license** to a file and save the file with a descriptive name (e.g. Backup\_license.cfg).

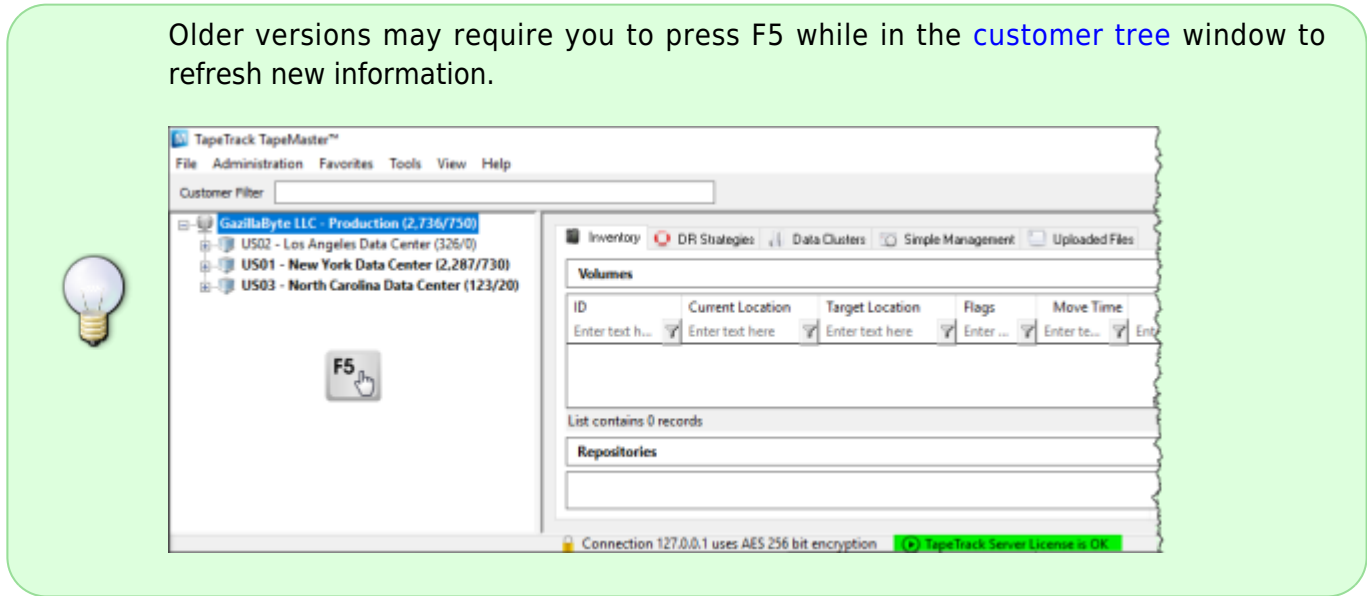

Click **Import license** and select the new license config file you received. Click **Apply license changes** to save updated values.

Your expiry date should now be updated and **License Status** should read **OK**.

Click OK to close the License Window.

Older versions may require you to press F5 while in the **customer tree** window to refresh new information.

## Troubleshooting

If after installing new license configuration file your **License Status** still reads **Not-OK**, reinstall old configuration (backupLicense.cfg) file using above instructions and contact help desk [support](#) for further information.

Alternatively you can click Get temporary license and OK from the Framework Server Licensing window to give you a 12 day expiry date to continue to use TapeTrack until your new key has been issued.
