Adding and Deleting Media Types

This page details how to Add or Delete Media Types.

Adding a new Media Type

Right-click a Customer and select Add Media Type This will launch the Edit New Media Window.

This will launch a Edit New Media window. The first tab on the Edit New Media window is the Identity tab. The Identity tab requires the input of a Media ID and a Media Type Description. You can add up to four characters as the Media-ID and up to twenty characters for the Media Type Description.

The Options Tab provides options for the new Media Type. These options are identical to those in the

Last update: 2025/01/21 22:07

Options Tab in the Media Type Properties Window.

Click Save

The next prompt will be to add the relevant repositories.

Deleting Media Types

Right-click a Media Type in the Customer Tree. Select Delete Media Type.

Note: Media Types that contain Repositories and/or Volumes cannot be deleted. For more information, see:

- Adding and Deleting Repositories
- Adding and Deleting Volumes
