Volume Refresh Clock

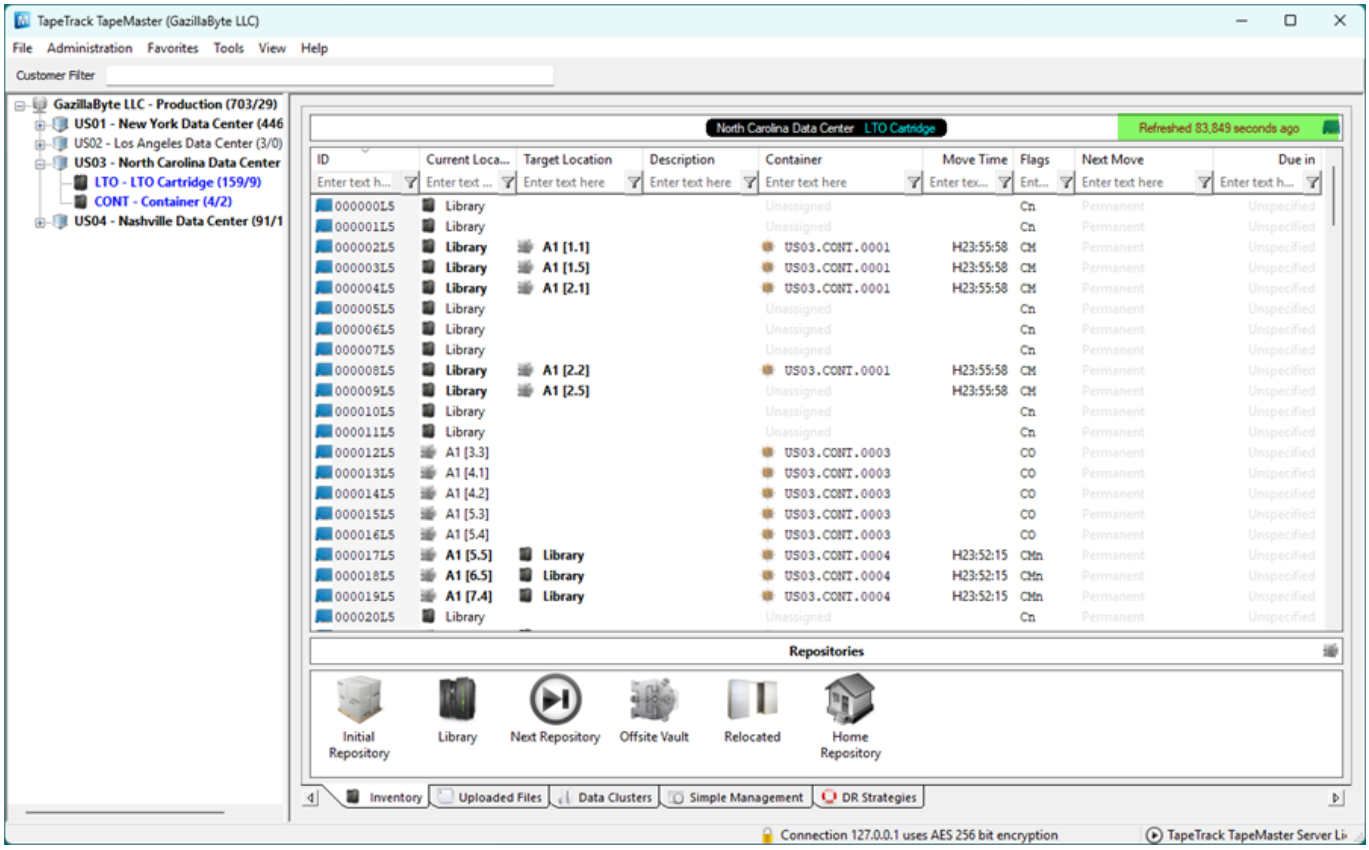

The `Volume Refresh Clock` displays a timer in the top right of the Inventory window. This timer shows how long ago the Inventory data was refreshed.

Display the Volume Refresh Clock

Open the TapeMaster preferences by clicking `File' > Preferences. Set the field` Volume Refresh Clock `to True and click OK to commit the data and close the window.`

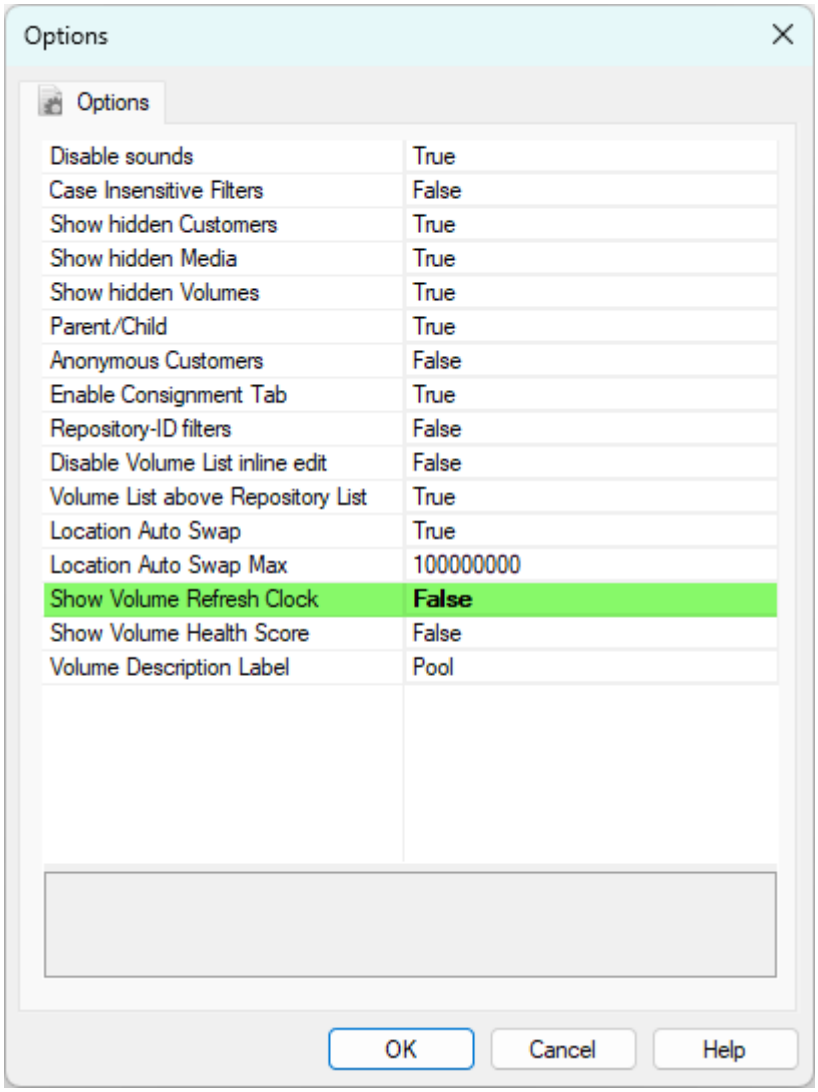

`The timer is now displayed at the top right of the Inventory window.`

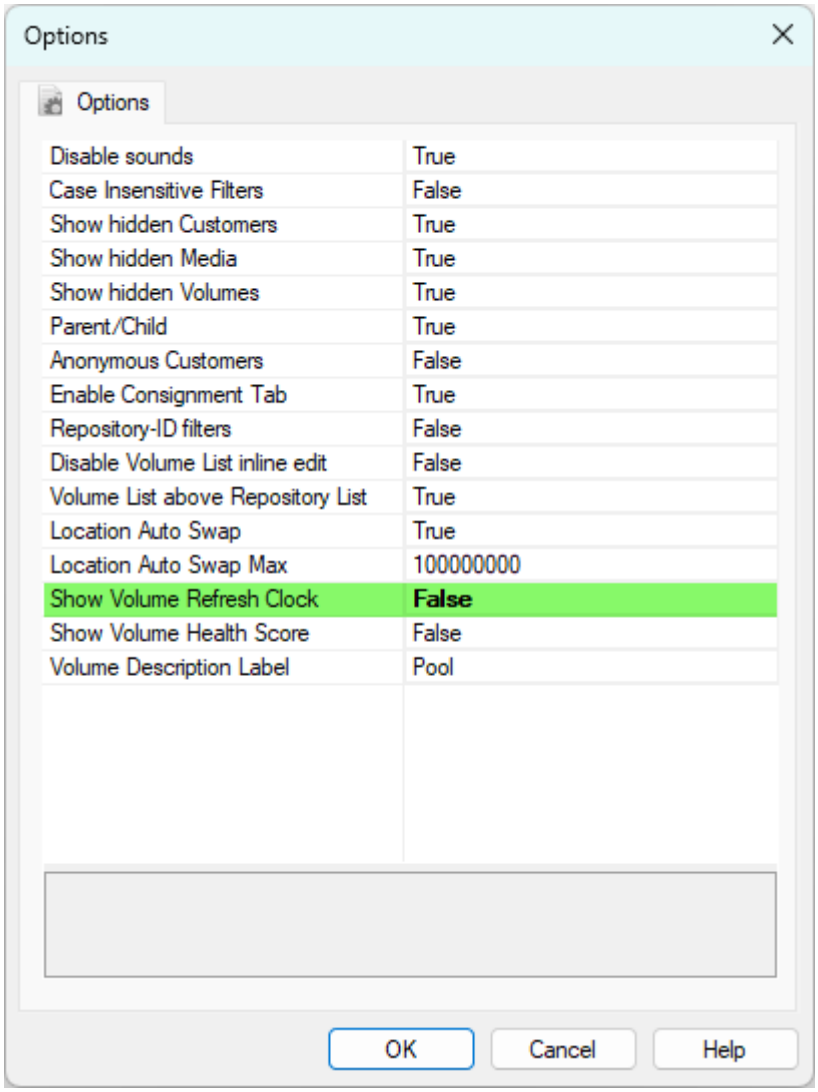

===== Remove the Volume Refresh Clock ===== Open the TapeMaster preferences by clicking File' > Preferences.

Set the field Volume Refresh Clock to False and click OK to commit the data and close the window.

Close and restart TapeMaster to effect the changes.
