Remove Volumes From Container

Remove Volumes Via The Volume Media Inventory Window

Select a Volume or range of Volumes (Shift+Click and or Ctrl+Click) from the inventory window to remove from container/s. Volumes assigned to different containers can be selected and removed at the same time, there is no need to select one container at a time.

Remove Volumes Via The Container Media Inventory Window

Purge Container Contents

Right click on the Container you want to remove the Volumes from and select Special operations > Container > Purge.

Multiple Containers can be purged together by selecting them, using Shift+Click or Ctrl+Click, before right clicking and selecting Special operations > Container > Purge.

Then click Yes to **Confirm purge** popup.

Confirm	Purge	\times
?	Are you sure you want to purge the 4 volumes from Container CONT001?	
	Yes No	

TapeMaster will now display the remaining Container contents, in this example as 0 as all Volumes were removed.
