All Volumes present in the inventory will display **Request OK** in the scan window, any Volumes not present in the inventory will display **Unknown Volume-ID**.

Exit from the Scan Window by clicking the X at the top right.

If you have any scan errors, the **Failed Operations** window will display the unknown Volumes, as well as all successful scans if the Display results that were OK checkbox is checked. From this window you can:

- Copy Volume-ID's to clipboard.
- Export Volume-ID's to file.

Exit Failed Operations window by clicking OK or X at the top right.

The **Filter Selection** window displays the total number of Volumes in the Inventory, the number of Volumes selected, the number of Volumes not selected and a graphical representation of these figures.

Use the drop-down in the results window select:

- Display all (with found items selected).
- Display only selected.
- Display only not selected.
