

Server Information

The Server Information Window displays details of the server and the current connection.

To open the Server Information window select, from the main menu, File → Server Information.

Server Information Window

The screenshot shows a window titled "Server Information" with a close button in the top right corner. Below the title bar is a decorative graphic of a blue globe with a server rack icon and a network cable. The window is divided into four main sections:

- Server Details:** A table with three rows: Owner (GazillaByte), Description (Production), and Version (Monday, June 15, 2020 - 16:31:16).
- Server Runtime Details:** A table with four rows: Process-ID (1580), Current Time (Thursday, July 02, 2020 - 12:07:24), Start Time (Monday, June 29, 2020 - 14:58:27), and Uptime (2 Days, 21 hours, 8 minutes 57 seconds).
- Current User Information:** A table with three rows: User-ID (tapemaster), User Name (Super User), and User E-Mail (empty).
- Server Details:** A table showing connection statistics: Requests (72), Bytes Sent (11,924), Bytes Received (2,112), and Compression (69,184). To the right of the Bytes Sent and Compression values are two horizontal progress bars, one green and one light green.

An "OK" button is located at the bottom right of the window.

There are four different panels in the **Server Information Window**:

- **Server Details:** The Server Information as defined by [Framework Server License](#):
 - **Owner** name of TapeTrack Software
 - **Description** of TapeTrack Software
 - **Version** of TapeTrack Software currently installed.
- **Server Runtime Details:**
 - **Process-ID**
 - **Current Time**
 - **Start Time**
 - **Uptime**
- **Current User Information:** Displays information on the current User.
 - **User-ID**
 - **User Name**
 - **User Email**
- **Server Details:** Displays connection information pertaining to the current session.
 - **Requests**

- **Bytes**
 - **Bytes Sent**
 - **Bytes Received**
- **Compression**
 - **Sent**
 - **Received**
