

# Server Information Window

The Server Information Window displays details of the server and the current connection.

The screenshot shows a window titled "Server Information" with a close button in the top right. At the top center is a blue globe icon with a network cable plugged into it. Below this are four panels:

- Server Details:**

|             |                                  |
|-------------|----------------------------------|
| Owner       | GazillaByte                      |
| Description | Production                       |
| Version     | Monday, June 15, 2020 - 16:31:16 |
- Server Runtime Details:**

|              |  |
|--------------|--|
| Process-ID   | 1580                                   |
| Current Time | Thursday, July 02, 2020 - 12:07:24     |
| Start Time   | Monday, June 29, 2020 - 14:58:27       |
| Uptime       | 2 Days, 21 hours, 8 minutes 57 seconds |
- Current User Information:**

|             |            |
|-------------|------------|
| User-ID     | tapemaster |
| User Name   | Super User |
| User E-Mail |            |
- Server Details:**

|                |        |
|----------------|--------|
| Requests       | 72     |
| Bytes Sent     | 11,924 |
| Bytes Received | 2,112  |
| Compression    | 69,184 |
|                | 569    |

Two progress bars are shown to the right of the Bytes Sent and Bytes Received rows. The top bar (for Bytes Sent) is approximately 75% full, and the bottom bar (for Bytes Received) is approximately 10% full.

An "OK" button is located at the bottom right of the window.

There are four different panels in the **Server Information Window**:

- **Server Details:** The Server Information as defined by [Framework Server License](#):
  - **Owner** name of TapeTrack Software
